PIMPLES

CURED BY

CUTICURA SOAP

Before using CUTICURA SOAP, my face and hands were just as rough as could be and my face was all covered with pimples. I was unfit to look at, but after using CUTICURA SOAP three weeks, my face was equal to velvet.

Feb. 6, 1898. PAUL DUPRE, Chalet, La.

I suffered with blackheads and pimples for two or three years until it became chronic. I tried everything imaginable, but it did me no good. CUTICURA SOAP cured me.

Feb. 20, '98. L. V. GILLIAM, Oak P. O., Va.

I was troubled for eight years with pimples on the face. I commenced using CUTICURA SOAP. In a very short time the pimples all disappeared and my skin is now in a healthy condition. JAMES FOSTER,

THE PRICE OF PEACE.

Official Statement of the President's Demands Upon Spain.

NO WORD YET RECEIVED FROM MADRID.

WASHINGTON, Aug., 2.—The following is an official statement given out by authority of the president today as to the terms of peace offered by the United States:

"In order to remove any misapprehension in regard to the negotiations as to peace between the United States and Spain, it is deemed proper to say that the terms offered by the United States to Spain in the note handed to the French ambassador on Saturday last are in substance as follows:

"The president does not put forward any claim for pecuniary indemity, but requires the relinquishment of all claim of soverignty over or title to the island of Cuba, as well as the immediate evacuation by Spain of the island; the cession to the United States and the immediate evacuation of Porto Rico and other islands under Spanish sovereignty in the West Indies, and the like cession of an island in the Ladrones.

"The United States will occupy and hold the city, bay and harbor of Manila pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippines. If these terms are accepted by Spain in their entirety, it is stated that commissioners will be named by the United States to meet commissioners on the part of Spain for the purpose of concluding a treaty of peace on the basis above indicated."

SPAIN HAS NOT MADE HER REPLY.

WASHINGTON, Aug. 2.—Up to the time the cabinet met today no word had come from Spain either directly or through the French ambassador in response to the demand of the United States. Notice was taken of the statement from Madrid that a further explanation had been asked by the Spanish government, but this has not been directed so far to either the state department or the French embassador. The allusion to "further explanations," however, is regarded as a rather hopeful sign as tending to show a disposition on the part of the Spanish government to close early with our terms, for it is said that the expectation was that the Spanish rejoinder would take the form of a counter proposal, the effect of which would be to lead to diplomatic sparring. It has been admitted at last by members of the administration that the terms of peace laid down by the United States had been practically stated with accurracy in the press dispatches, and realizing the futility of further concealment some official characters was to be given to the press statements by formal declaration from the white house.

Some such plan as that has been in contemplation for several days in deference to pressing requests, not only from the newspapers, but from a number of public men who felt that the people should be taken more thoroughly into the confidence of the administration.

It was represented on the other hand that the negotiations might be seriously jeopardized by the ill effect in Spain of a publication on the terms imposed. However, as had been already stated, the full and accurate newspaper publications descriptive of the peace conditions have made it unnecessary to maintain secrecy longer, and when the cabinet met it was with the understanding that a short synoptical statement touching the matter, though not including the text of the peace terms, should be made public.

It is understood to be the present intention of the administration to assume liability for all the indebted claims preferred by American citizens against Spain, on account of injury to personal property in Cuba. Some part of this liability may be imposed upon the government of Cuba later on, when that shall have been established, and to include such cases as can be directy charged up against the insurgents, where they have destroyed the property of American citizens in the course of their operations.

The assumption by the victorious nation of liability for private claims is not new in the arrangement of peace conditions, but on the contrary is rather in the line of the usual practice. At the conclusion of the Mexican war the United States assumed all such claims in behalf of American citizens, and established a special tribunal for their adjudication and payment. The same course was pursued in 1819 in effecting a settlement of the Florida troubles with Spain; though the decisions announced by the special tribunal were a source of litigation and negotiation clear down to the present time.

The amount of these claims against Spain in behalf of American citizens who suffered in Cuba was $15,000,000 at the date of the destruction of the Maine. It is estimated that this total has been increased to $20,000,000 since that time, and no doubt is entertained that there are many other claims of large amounts that have not yet been presented. Of course it is not possible at this stage to indicate what proportion of the claims are justly chargeable to the acts of the Cuban insurgents, and it is known that in many cases the claimants themselves were unable to tell the source of the damage to their property, whether by Spanish troops or the insurgents.

CLARENCE COOK

Seems to Have Struck it Rich in the Gold Fields.

E. W. Cook, His Brother, Received a Letter Written at Morris Creek, Alaska.

E. W. Cook this afternoon received a letter from Clarence Cook, writen June 25 at Morris Creek. Rich discoveries in that vicinity caused a stampede of gold hunters to Morris Creek and Clarence "got in on the ground floor." He writes that he has a claim from which he expects a rich yield. He has written a letter to THE SENTINEL, which will be printed as soon as received, and no doubt will be read with interest by his numerous friends.

Clarence had not been heard from since May 5 and there was considerable anxiety as to his whereabouts and some fears were entertained that his health might have been affected. He is "chumming" with the correspondent of the Chicago Herald.

LOCAL LINES.

Mr. and Mrs. Charles Miller, of Peru, visited in Fort Wayne yesterday.

Miss Kittie Lucas, of Indianapolis, is visiting friends and relatives in the city.

Hon. J. C. Branyan, a prominent Huntington attorney, was registered at the Randall hotel today.

Mrs. Graham, of Findlay, Ohio, has returned home after a pleasant visit with Dr. and Mrs. J. E. Miller.

Miss Marguerite M. Kline, of Akron, Ohio, is the guest of Mr. and Mrs. Carl White, of East Suttenfield street.

Miss Irma Becker will return tomorrow from Ligonier, and will leave next week for her home in Nebraska.

Miss Bessie Eckert celebrated her birthday anniversary last evening by entertaining a party of friends at her home.

William Quillinan and sister, Margaret, of Chicago, are visiting in the city, the guest of Miss Nellie Quillinan, of No. 23 Colerick street.

Henry Brown, Perry Stahl, Henry Lauer, Otto Hold, William Jackson, Leon Levi and John Clever have left for Blue lake, where they will camp out for two weeks.

John Bitsinger, foreman of the Huntington Herald office, was called to the bedside of his father yesterday. Mr. Bitsinger, sr., is lying very low at his home on East Wayne street, and his condition is considered dangerous.

Miss Gertrude Miller, daughter of Mr. and Mrs. F. X. Miller, of No. 55 Charles street, gave a birthday party last evening in which about twenty of her young friends participated. Mrs. Miller served supper on the lawn. The hostess was twelve years old yesterday.

Mrs. Emily Salisbury, of No. 27 Baker street, wife of the stone cutter, is visiting her parents in Chicago. When her visit is over she will make a tour of the lakes, visiting Niagara Falls and all the principal cities of the east. Her friends wish her a pleasant and safe journey.

J. H. Aiken writes G. W. Jones that he is having a fine time fishing in the St. Clair river and sends Mr. Jones eighteen pickerel, forty-eight bass and twenty-three two-pound perch. He says the largest fish caught thereabouts was 13¼ feet long and weighed 236¼ pounds. Mr. Aiken's reputation for veracity is such that no person will dispute the truth of his assertions.

SNUBS THE EMPEROR

Count Herbert Bismarck Ignores His Ruler.

William May Not Attend the Last Rites.

Emperor's Requests Flatly Turned Down.

The Iron Chancellor's Son Manifests a Disposition to Take Up His Father's Fued.

BERLIN, Aug. 2.—The Neusti-Nacrichten today publishes a dispatch from Friedrichshruhe, which says:

Prince Herbert Bismarck is quite broken down by the worry and vigils of the past few days.

Professor Leubach says he has not been allowed to paint a picture of the deceased, and a cast of his features was not taken.

As indicating how well the deceased felt on Thursday, it is said that when going to bed at 11:30 he said:

"Well, now I shall have a sleep."

It seems doubtful whether Emperor William will go to Friedrichsruhe owing to the attitude of Prince Herbert Bismarck, who not only has not heeded his majesty's desire to have the remains of his father buried in Berlin, but who seems to have refused Professor Lenbach permission to paint a portrait of the deceased, as the emperor desired.

Besides this, the coffin containing the remains of Prince Bismarck has been closed somewhat hurriedly.

Emperor William leaves Kiel at 3 o'clock this afternoon and will reach Potsdam at 11 o'clock.

The funeral service in honor of the late Prince Bismarck will take place on Thursday morning in the Emperor William's memory church. The federal council, members of the reichstag and of the Prussian diet, and the state and municipal authorities, will be invited.

STARTS FOR FREIDRICHSRUHE.

KIEL, Aug. 2.—Emperor William and the empress left the imperial yacht Hohenzollern at 2:15 p. m. today, saluted by the warships here, and took a special train for Freidrichsruhe.

THANKS THE PRESIDENT.

BERLIN, Aug. 2.—The United States Ambassador, Andrew D. White, has received the following message from Prince Herbert Bismarck:

"We thank your excellency most devotedly for the warm sympathy which the president, in the name of your government and people, caused to be expressed to our family through you. Receive at the same time my heartiest thanks for your personal condolences."

Memorial service in honor of the late Prince Bismarck are being organized throughout the country.

The imperial chancelior, Prince Hohenlohe was the last person permitted to look upon the remains of the former chancellor before the coffin was closed.

Strange rumors on that subject are current, and also as to the cause of the emperor changing his mind and going to Freidrichsruhe. These rumors are puzzling the papers, which continue to print warm eulogies of the deceased, though the socialistic Verweartz, accuses Prince Bismarck of working always in the interests of capitalism, adding that whenever he dealt with moral and intellectual factors he failed.

The Polish press declares Prince Bismarck was the greatest enemy of the Poles.

BIG STRIKE ON.

Nail Mill Men of Cleveland Prepare to Battle With the Trust.

CLEVELAND, Ohio, Aug. 2.—A strike was formally declared on today by the Federated Wire Trades at the works of the H. P. Nail company, and American Wire company, both of which are now under control of the recently formed Wire and Nail trust.

The strike, with the rod mill and yard men of the American company, who will join it, will throw about 2,100 men out of employment. Of these 900 are from the H. P. company, and 1,200 from the American works. The strikers have decided not to pay any attention to the old consolidated, or Baackes mill, which is also controlled by the trust, and where the men are all working.

The cause of the strike is the alleged general cut of 33⅓ per cent in wages and a threatened cut of 20 per cent more.

CIVIL SERVICE.

Examination for Postoffice Service Will be Held Here in October.

The United States civil service commission announces than an examination will be held for the postoffice service in this city on some date between October 1 and 15, 1898. All persons who desire to be examined should apply to William J. Hess, the secretary of the board of examiners, at postmaster's office, for application blanks, and full information relative to the scope of the examination. Applications on Form 101 must be filed in complete form with the secretary of the board prior to the hour of closing business on September 1; otherwise the applicants can not be examined. Soon after filing applications, applicants will be notified as to the exact date of examination.

THEY TRUST DEWEY.

But Philippine Insurgents Want to Know What's the Program.

MERRITT AND AGUINALDO MAY CLASH.

NEW YORK, Aug., 2.—A cablegram to the Journal from Cavite, July 30, via Hong Kong, reports that the correspondent has spent two days in interviewing insurgent leaders. As a result, the correspondent says, he discovered evidences of jealousy of the American invasion, but no actual anti-American feeling. The dispatch adds:

"Aguinaldo is respectful towards Admiral Dewey, General Merritt and Consul Wildman, and will go any length to retain Wildman's good opinion, but he holds back from giving energetic help to the United States forces.

"He will give only a negative sort of assistance until he knows the exact form which the American policy will take. He is disturbed by telegraphic reports that the United States will abandon the islands to Spain.

"There are some indications of a clash between General Merritt and Aguinaldo."

FOURTH EXPEDITION REACHES HONOLULU.

SAN FRANCISCO, Aug. 2.—The Call says: The steamer Doric, which arrived late last night, brought news of the arrival at Honolulu of the fourth Manila expedition. The Doric left Honolulu last Monday. The transports arrived there the day before with all on board well and on Monday the boys in blue were ashore and were given a royal reception and a grand feast.

The fourth expedition left here July 15 and reached Honolulu without mishap to either of the vessels.

Great preparations are being made at the islands for a grand celebration of the arrival of the annexation commissioners and the raising of the stars and stripes.

FIVE THOUSAND MEN SAILED SINCE MERRITT.

SAN FRANCISCO, Aug. 2.—In reply to a dispatch received from General Merritt, now at Cavite, General Merriam today cabled that since the departure of the governor general of the Philippines five transports, with 4,807 men, have sailed from this port.

Scarcely had the message been sent before General Merriam received word from the war department that General Merritt had asked to have his command increased from 20,000 to 50,000 troops, in order to be able to meet any emergency which may arise on account of the hostile attitude of Aguinaldo and the insurgent forces.

GREAT FORCE WILL BE NEEDED AT MANILA.

WASHINGTON, July 2.—Although the war department officials will not admit that they have any intention of reinforcing further General Merritt's forces at Cavite, there is reason to believe that some of the troops now in eastern camps who desire to see active service will soon find the opportunity unless the government shall change its present plans with respect to the Philippines.

It is believed to be necessary, even if our claim is limited to the terms stated in the conditions submitted to Spain, namely, the military occupations and government of the territory on the shores of Manila, to furnish to General Merritt a larger force than he has now at his command.

It is realized that 20,000 soldiers can scarcely be expected to maintain United States possession and protect the inhabitants over a territory of this extent, for it must be remembered that the bay of Manila is twenty-five miles deep from the entrance at Corregidor Island to the city of Manila at its head. It will also be necessary to possess and protect a zone extending some distance back of the city in order to make sure of the preservation of the waterworks.

Of course a considerable force would not be necessary if the insurgents under Aguinaldo could be brought to realize that their interests lie in permitting undisputed possession of this territory by the United States.

But it would be expecting too much of the native character to keep before the eyes of the insurgents the rich loot to be had in Manila without an adequate force to protect the place. Then with the growing heat and dampness it is to be expected that illness will develope among the troops; not to the extent that it appeared at Santiago, but sufficient to require some of the men to be invalided home and their places to be taken by fresh troops from the United States.

At present the large majority of General Merritt's force is composed of troops drawn from the Pacific coast or far western states. It is presumed that if he shall be reinforced, the eastern troops will be given an opportunity to make the long voyage to Manila, as this would be in accord with the policy that the war department has now adopted of taking geographical considerations into account in allotting the troops for active service at the front.

GETTING READY.

Indiana Republicans Gathering in Indianapolis.

State Convention Will Meet Wednesday and Last Two Days—A Lively Fight Against Marion County Machine.

INDIANAPOLIS, Aug. 2.—This city is the Mecca of the politicians of the republican party of Indiana. The state convention assembles tomorrow and already the city is thronged with delegates, sympathizers and boomers and a goodly contingent of outsiders. United States Senator Fairbanks will preside over the sessions of the convention, which will continue through Wednesday and Thursday.

The thirty candidates for the eleven nominations that are to be made by the republican state convention have opened an electioneering bureau in the Denison hotel and the supporters of each are coming from all over the state. It is charged that the local machine in this (Marion) county has been planning to manipulate the convention in favor of a slate by trading on the 135 delegates of the county.

The delegates from the country, who have always charged Marion county with taking more than its share of the offices, threaten to defeat every man supported by the local machine at the capital.

Many representatives of the party are objecting to the presence of Harvey M. Lafollette, of Chicago scrip fame, as the manager of the "pool" being formed by the Indianapolis politicians.

The interest in the nominations still centers around the contest for auditor of state. William H. Hart, the deputy auditor, is being opposed on the ground that he has "impugned the honesty" of a good many men by questioning bills presented to the auditor for indorsement. James R. Henry, the principal opponent of Hart, is backed by the men who feel that they have been mistreated by the deputy auditor.

The party platform will indorse the state administration and make special mention of the saving by reason of the inspection of accounts, and the party leaders are alarmed lest the men who put into effect the reforms will be defeated.

The platform-makers have about completed their work. Several representatives of the party were protesting at headquarters today against the convention indorsing the currency reform bill now pending in congress, but the leaders say the few white-metal men in the party will not be heeded. The first session of the convention will be held Wednesday afternoon. The nominations will all be made Thursday.

WOULDN'T ACCEPT.

The Bicycle and Athletic Clubs Will Not Consolidate.

A Proposition Received From the Athletic Club Was Voted Against by the Bicycle Boys.

The Fort Wayne Cycle club last evening received a proposition from the Fort Wayne Athletic club that the two consolidate. The communication from the Athlotic club contained a statement of the conditions on which a consolidation would be desirable. The bicycle boys were not favorable to the proposition and without much discussion voted almost unanimously to remain aloof from other organizations.

PAY FOR SOLDIERS.

Camp Thomas Boys to Get Their Money Tomorrow.

Paymasters Will Distribute More Than $1,500,000.

An Army for General Wade Soon to be Formed.

Colonel Culver Has Begun a Course of Severe Discipline for the Recalcitrants of the Fifth Illinois.

CHICKAMAUGA, National Military Park, Tenn., Aug. 2.—The two main subjects of interest at Camp Thomas at present are the expected arrival of the paymasters tomorrow and the expedition which it is reported is being arranged in Washington for Major General Wade. The paymasters are expected to get in at an early hour tomorrow morning and to begin their work before noon. The pay rolls of all the regiments are now complete and there will be little delay in making the payments. The total to be paid will be near $1,500,000.

Nothing has yet been heard from Washington in regard to General Wade's expedition and the officers and men of all the regiments here continue on the anxious seat.

The impression prevails that General Wade will take with him the regiments best fitted, no matter to which corps or division they may belong and every regiment is now attempting to impress its fitness and its right to be included in the expedition.

In one regiment a petition to the war department is being circulated and liberally signed.

Colonel Breckinridge, the new commander of Camp Thomas, is expected to arrive tonight and take charge tomorrow. He is well known to the majority of the officers as he was here some time on inspection business a few weeks ago.

Brigadier-General Franks, assuming command temporarily, did not necessitate his giving up his division for any time and he will be in command at both corps and division headquarters until General Breckinridge arrives to relieve him.

Now that the boys of the Fifth Illinois have had their fun, Colonel Culver will have his inning. He has announced that every non-commissioned officer who took part in the demonstration last week after the regiment was recalled will be reduced to ranks. This work is to be commenced at once and new men appointed in their places. Colonel Culver says his regiment has had a good reputation for years and he intends to sustain it. He added:

"I have ordered all of these non-commissioned officers reduced, that is, those who were absent without leave. I judge there was about a dozen of them. The other men who are guilty of being absent without leave will be fined by the field court."

The new camp of the Fifth has been thoroughly cleaned and now presents a pretty appearance. It will be remembered that there was a good deal of sickness while the men were quartered in their old camp, but the sick reports show a remarkable decrease since the new camp has been pitched. The officers of the regiment expect but little trouble hereafter on account of sickness.

FOR ANOTHER TERM.

Speaker Reed Renominated by the Republicans of the First Maine District.

PORTLAND, Maine, Aug. 2.—The republicans of the First congressional district held their convention here today. After preliminary business the name of Thomas B. Reed was presented to the convention and he was nominated by acclamation amid mubh enthusiasm. Later Mr. Reed appeared on the floor of the hall.

He was greeted with deafening applause, which prevailed until Mr. Reed began to speak. Then some one shouted, "Take the platform."

"No," said Mr. Reed, "let me have my way once," and the convention broke into laughter.

Mr. Reed then spoke briefly, returning thanks for the renomination.

GIVES BIG ROYALTIES.

Canadian Government Has Taken $2,500,000 From Yukon Mines in One Year.

SAN FRANCISCO, Aug. 2. — A special to the Examiner from Dawson City, of July 27, says:

Within the last twelve months the Canadian government has taken from the Yukon mines more than $2,500,000. The cost of maintaining the mounted police in Dawson and the salaries of the district officials, have been reported to the Canadian parliament to be in the neighborhood of $100,000, leaving a net annual gain to the government of over $2,000,000.

The largest individual amount that goes to make up this total is the royalty, which has been conservatively estimated to be $800,000.

Miss Nellie Gill, of Port Clinton, Ohio, arrived in the city today and left at 4:30 p. m. for Winona Lake, Ind., where she will be a guest for two weeks at the Culbertson cottage.

Miss Mamie Dickinson gave a 6 o'clock dinner last evening.

THE SETINNEL has made arrangements with a boy at Rome City to deliver the paper each evening.

TO FIX THE BLAME.

War Department Probing the Scandals of the Transports.

THE GUILTY OFFICIALS TO BE UNCOVERED.

WASHINGTON, Aug. 2.—An effort will be made by the war department to ascertain the official at Shafter's headquarters who is responsible for dispatching to the United States loaded with soldiers the transports which are alleged to be unfit for the work to which they are put. With this end in view Surgeon General Sternburg has sent the following dispatch to Major Havard, the surgeon with Shafter's army:

"The management of the medical department at Santiago is severely criticized. Sick and convalescents sent on quartermasters' transports are said to be over-crowded, not properly supplied with medicines or medical attendance or with suitable light diet. Who is responsible? Report in full and take measures to prevent similar occurrences in future."

At the same time a rigid investigation is to be made of the charges by the Red Cross officials and others concerning the unfitness of the transport Concho, which reached New York several days ago. Secretary Alger has taken much interest in this matter following so soon the case of the Seneca, which about ten days since brought to New York a large number of sick and wounded, which vessel also was said to be unsuitable. The investigation will be made by Col. C. H. Heit, of the inspector-general's police.

General Sternburg feels that injustice is done the officers of his department in the criticisms made of the use of the transports in bringing the sick and wounded north and in the preparations for the journey. As a matter of fact, he said today, he did not know that the Concho was to be used for a temporary hospital ship, the first intimation of that character being received when a telegram reached him announcing the arrival of the vessel at Norfolk. The loading of the ship with supplies, including ice, other than medical character, does not come under the supervision of his bureau and his officers, he says, should not be charged with any derelictions of that character.

PERU AND PEKIN REACH HONOLULU.

HONOLULU, July 26—via San Francisco, Aug. 2.—The transports Peru and City of Peking arrived on the 23d. Three men with typhoid fever were removed from the ships to the hospital. Lieutenant Hunt, of the Fourteenth infantry, is one of the sick. Charles H. Watson, bandmaster of the Thirteenth Minnesota regiment, died in this city on the 21st, of typhoid fever, contracted on the voyage from San Francisco.

A BODY OF SPANISH REPORTED WIPED OUT.

MADRID, Aug. 2.—2 p. m.—An official dispatch from Havana says 400 insurgents recently attacked a Spanish detachment, numbering twenty men and commanded by a sergeant, near Huanes, in the western part of the Province of Pinar del Rio. After a fearful fight, the dispatch adds, the insurgents fled, having killed ten of the Spaniards and wounded a number of others. The survivors, it appears, are to be decorated and recompensed.

SHAFTER RELEASING POLITICAL PRISONERS.

WASHINGTON, Aug. 2.—The war department has posted the following telegram from General Shafter, dated Santiago de Cuba, August 1:

"All political prisoners have been immediately released as soon as we reached them. Have not heard from Guantanamo, but General went there three days ago to receive the surrender of arms and political prisoners. They were undoubtedly released on his arrival."

HEALTH REPORT FROM SHAFTER.

WASHINGTON, Aug. 2.—The detailed condition of affairs at Santiago, together with a list of the deaths on each day, is shown in the following telegrams from General Shafter:

"Sanitary condition for July 29: Total sick, 4,164; total cases of fever, 3,212; new cases of fever, 609; cases of fever returned to duty, 792; deaths, 10.

"Sanitary condition for July 30: Total sick, 3,892; total cases fever, 2,602; new cases fever, 548; cases of fever returned to duty, 815; deaths, 5."

In another dispatch dated today, General Shafter says he has in the hospitals wounded and sick prisoners to the number of 2,281.

VIOLATORS OF LAW.

An Effort Being Made to Enforce the Sunday Laws.

The Committee of One Hundred Will Prosecute Persons Who Desecrate the Sabbath.

The Committee of One Hundred, made up of law-abiding citizens of Fort Wayne, have determined, if possible, to enforce the Sunday laws. Yesterday affidavits were sworn to by Revs. J. S. Ainslie and W. D. Parr, charging Russell George, Frederick Schmeuckle, William Hollenbeck and Frank Belchin with maintaining screens in front of their bars on Sunday. These gentlemen were part of a committee appointed to investigate the alleged Sunday violations. Four sub-committees were appointed. Those from the east and north side reported that they found all places quiet and no violations. The south side committee did not report. Revs. Ainslie and Parr were members of the committee which visited the down-town places. It is asserted that James Saxemeyer's saloon was the only place visited where the bar was visible. At other places men seen going in and out and at still others voices could be heard within. Some of the persons who visited the saloons even went so far as to invite the reverend gentlemen to go in with them.

The result of these visits about the city were the filing of the above affidavits, and more are to follow. THE SENTINEL was informed on reliable authority that the cases would be contested and that jury trials will be demanded. Should convictions be returned the cases will be appealed to the state supreme court.

The laws of the city should be enforced, and especially those which are made to protect young men against pitfalls offered by the liquor traffic. If the authorities are unwilling to enforce these laws, then there certainly are enough citizens favorable to law and order who will at least make an effort to supress the Sunday evils.

The affidavits against Schmeuckle and George are filed in Justice Franco's court, the one against William Hollenbeck in Justice Bullerman's court, and against Belchin in Justice Huser's court. The cases against Schmeuckle and George have been set for tomorrow afternoon and the one against Hollenbeck is being heard this afternoon. Belchin appeared before Justice Huser and was granted a continuance until Thursday afternoon. He is a member of the Local Liquor league, and it is understood will fight the case and demand a jury trial.

NOTES.

The superior court adjourned today until August 15.

The circuit court will not convene again until September 1.

Judge Roby overruled motions for new trials in the cases of the Farmers' bank vs. Medsker and Buck against the Fraternal Insurance company.

The motion for a new trial in the case of Shelley vs the City of Fort Wayne was argued yesterday before Judge Roby who took the matter under advisement.

Emmett Hatch was fined $1 and costs by Justice Franco this morning for assault and battery on Delvin Cone. The parties reside in Huntertown.

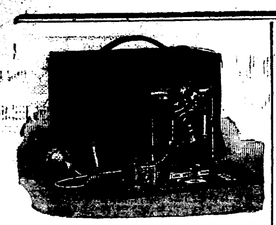

Louisa Wessel has sworn to an affidavit charging Louisa Baumgard with provoke. Squire Franco will try the case.

Justice Huser fined Charles E. Hoffman $1 and costs for provoking Jacob Meyer. The case will be appealed to the circuit court.

RILMA IS HERE.

W. O. Foote Arrives at the Track With His String of Four.

W. O. Foote, of Houston, Texas, arrived at the Driving park this morning with his string of horses, four in number. The leader of the stable is Rilma, with a record of 2:10, and she will start in the 2:10 trot on Wednesday. The other horses in Mr. Foote's stable are John Nolan, 2:12, who will start in the 2:28 trot on Monday; Parnell, jr., 2:18¼, and Rene, a green trotter with no mark. Mr. Foote says the 2:10 trot will be the event of the season in the grand circuit.

HEALTH in Indiana was unusually good for the quarter ending June 30. The report of the state board of health will show 1,000 fewer deaths than the previous quarter. This is remarkable, inasmuch as April May and June are usually months fraught with mortality.

THROUGH the influence of Perry S. Heath, assistant postmaster general, several Indiana men will be authorized to establish the first national bank opened in Honolulu since the annexation of Hawaii. Fred Heath, of Muncie, a brother of the assistant postmaster general, will be at the head of the institution. The bank will be known as the First National Bank of Honolulu.

SLATES sometimes go through quickly. It depends upon circumstances. The North Dakota republican state convention at Fargo placidly nominated its fourteen candidates on the state and congressional ticket in twenty-three minutes. Every one was by acclamation and there was objection to none. Harmony was never wholesaled with such a prodigal hand, says an observant corrspondent.

WESTERN papers are printing an interesting story of the alleged discovery in Iowa of the missing heir to some $3,000,000 worth of property, left by his bachelor uncle when he died in Oregon, but an elaborate statement of the value and attractiveness of two summer resorts which is incorporated in the narrative may give rise to the suspicion that it is an ingenious attempt to advertise places where guests in these war times are not too numerous.

CHARLES E. WILSON, formerly managing editor of the Lafayette Daily Courier and now private secretary to Governor Mount, has been mentioned prominently for superintendent of the Bureau of American Republics, which office is to be filled October 1. Mr. Wilson is one of the best and brightest newspaper men in Indiana, and nothing would please better his editorial brethren throughout the state than to see him get this appointment or any other that his tastes or ambitions may fancy. Charley Wilson can fill any position in which he is placed and fill it well.

THE Gazette says that the property owners are becoming much concerned over the condition and quality of the new asphalt pavement that is being laid on several streets in the south part of the city. We have great faith in the integrity and vigilance of the members of the board of public works and feel sure they will never accept from the contractors any pavement that is not what it should be and fully up to all requirements of contract. If, after the streets are completed, it is demonstrated that the pavement is not what the contract requires, the property holders should of course refuse to pay for the work until it is made what it should be.

THESE words from some anonymous source of wisdom are worth the heed of every man who owns a horse: "The inhumanity of keeping horses in tightly locked barns these hot, sweltering nights is a subject that demands the attention of our humane citizens. Owners of horses should remember that their faithful and intelligent animals suffer as much by having their barns tightly closed as would a person these warm nights by sleeping in a house with every window closed. The dumb beasts express their suffering throughout the nights by continued stamping. Better permit all the circulation of air possible through the horse stable and make the comfort of the horse paramount at this season of the year."

A NUMBER of ministers of Fort Wayne have inaugurated a crusade to bring about enforcement of the Sunday saloon laws. To convince themselves that the law was not enforced they visited a number of saloons and found that very little attention was being paid to the law. It is too bad that the ministers have to engage in such work as this as officers are elected and sworn to see that the laws are obeyed. As long as the voters care more for party than they do for the welfare and repute of the city just so long will there be bad officers and poor enforcement of the laws. Last spring the democratic and republican parties dodged this question because they were afraid to meet it honestly and courageously. It was known that the law was not being enforced and that it would not be. Each party was afraid it would fail to get the votes of the pro-saloon classes if any stand were taken in favor of compelling obedience to the laws. The law-abiding elements were given no choice.

Bismarck's Firm Faith.

The two greatest statesmen of the century, Bismarck and Gladstone, who have died within a few weeks, being contemporary, were often contrasted. Bismarck was an imperialist of the most absolute sort. Gladstone was a commoner of great intensity both in his belief and practice of democracy. In one respect Bismarck and Gladstone were one. Each had a deep and abiding faith in the Christian religion. Gladstone's faith absorbed his whole being in his last days as it had guided his conduct throughout his life, in his public career and in his private concerns. In his declining years Bismarck's faith in his God became firm and sustaining. When the fierce activities of war and the swirl of European politics were at an end for him there came the consolation of the faith in which he was bred. He faced death with calmness and fortitude, willing for the summons and prepared to go. But his faith was always a part of him. During the Franco-Prussian war he wrote:

"If I were not Christian I would not continue to serve the king another hour. Why should I incessantly worry myself and labor in this world, exposing myself to embarrassments, annoyances and evil treatment, if I did not feel bound to do my duty on behalf of God? Did I not believe in a divine ordinance which has destined this German nation to become good and great, I had never taken to the diplomatic trade, or, having done so, I would long since have given it up. I know not whence I derive my sense of duty if not from God. Orders and titles have no charm for me. I firmly believe in a life after death. Deprive me of His faith and you rob me of my fatherland. Were I not a staunch Christian, did I not stand upon the miraculous basis of religion, you would never have possessed a federal chancellor in my person."

The testimony of intellectual Titans like Gladstone and Bismarck and others of the world's greatest, humbly acknowledging their allegiance to the Christian religion, puts to rout the whole legion of pigmy scoffers.

AT ISLAND PARK.

Epworth League Day Celebrated Saturday.

Rev. Dr. Parr, of Fort Wayne Conducted the Services of the Day--An Auspicious Occasion.

Last Saturday was Epworth League day at Island Park assembly and the occasion was fittingly and auspiciously observed. Owing to rains in the morning the attendance was not what it otherwise would have been, but it was large, nevertheless, a good-sized crowd being present. The following details are furnished by the Kendallville Daily Sun:

Rev. W. D. Parr, of Fort Wayne, conducted the services of the day. Dr. Parr is one of the ablest preachers in the North Indiana M. E. conference. At the afternoon meeting the Harmony quartette sweetly sang, and a male quartet consisting of Revs. Cissell, Johnson, Powell and Sprague, of Fort Wayne, rendered a selection. Dr. Joseph F. Berry, of Chicago, editor of the Epworth Herald, lectured on "A Trip to Ireland." The address was a very entertaining one. His lecture was both humorous and instructive.

In the evening, after selections by the band, a miscellaneous program was rendered. There was a selection by the Harmony quartet. Miss Cleo Cartar, soprano of the quartet, very charmingly sang a solo, with violin and piano accompaniment, Prof. F. A. Thomas, of Kendallville, leader of the K. P. band and orchestra at the park, accompanying her on the violin, and Miss Duck on the piano. Miss Carter is the possessor of a voice of much sweetness and power. The audience requested an encore, but she did not respond. Miss Jessica Lycan gave a beautiful pantomime rendition of "Suwanee River" while that song was being sung. Dr. Berry and Dr. Curts, of Chicago, the latter one of the publishers of the Epworth Herald, each gave a short talk on Epworth league work and short talks were given by Rev. L. J. Naftzger, Dr. Trever and others.

Lem R. Hartman yesterday let to J. O. Brown the contract for a fine new residence to be erected on Jackson street, between Wayne and Washington. Mr. Hartman will make his future home therein.

A LUCKY SCORE.

But the Old Soldiers Were on the Long End of It.

The Hoosiers Beaten 16 to 1--Norcom Was Batted Hard--Fort Waynes Could Not Bat Streit.

The Old Soldiers had some fun with Norcom's curves yesterday at Dayton. He delivered the ball to the plate in tempting fashion and Mr. Armour's pets lined out home runs, etc. Streit was in the points for the Old Soldiers, and try as they would the Hoosiers could only solve his delivery for four hits and one run was all they could send over the rubber. The teams play today and tomorrow with Reiman and Brodie as the twirlers. Score:

NOTES.

Norcom had an "off" day yesterday and it was "off" with a vengeance.

Piatt and Flick are the two biggest finds of the season. Piatt has shut out his opponents in the last two games pitched.

The Daytons and Fort Waynes were arrested and fined by a country 'squire after Sunday's games. The 'squire held court on a box.

Dayton News: "Third Baseman Babb, of the Fort Waynes, is a comical 'duck.' He fields his position well and occasionally gets a good hit. Pittsburg is after him, having made an offer."

Big Dan McGann, Baltimore's first baseman, has not had an error in the last twenty-three games. He has accepted in these games 223 chances, with never a misplay. That is a record that will probably not be beaten this year.

Public Ledger: "Criger, the young Clevelander, comes pretty near being the best catcher in the league. He has not the experience as a backstop nor is he quite as quick in throwing as McFarland, but he is a better hitter than the Philadelphian."

Dayton News: "It was simply impossible for the Soldiers to hit Brodie effectually. His snaky balls came like softly flying feathers, but a breath of air usually steered them away when the Vets prepared to hit. Never before did the Soldiers strike more wickedly or more foolishly. His curves came as softly as the June breezes, but the way they jumped bridges was peculiar and somewhat remarkable. Brodie will be seeking admission to the major league soon. His success lies in his slow balls. When hit only short drives are made."

RAILROAD TO BE BUILT.

Chinese Promoter Has Enlisted the Aid of British Capital.

SHANGHIA, Aug. 2.—According to a dispatch from Pekin under date of July 31, Young Wing (not Yung Ping as previously given), a Chinese graduate of Yale, has obtained an extension of time for his concession for the Tien Tsing-Chin Kiang railroad, alleging that he has received the support of an English syndicate to supply the necessary capital—50,000,000 pund ($25,000,000). But, it is said, Hou Yu Fen, one of the directors general of the Chinese railroads, in face of Russian opposition to the loan, has broken off negotiations with the Hong Kong bank, which proposed to supply the capital for building an extension of the Tien Tsin Shan Haikwan railroad to Nu Chwang. The latter is distinct from Young Wing's concession.

THEY ARE POPULAR.

Public Baths the Thing in the Quaker City.

Philadelphia Now Has Ten in Use--Councilman Hench Gets a Letter From a Promoter of Public Baths.

Councilman G. R. Hench, who has proposed to the city council that Fort Wayne be supplied with a public bath and natatorium, has begun the collection of data showing that such institutions are not only greatly desirable, but entirely practicable. A letter from Select Councilman J. Emory Byram, of Philadelphia, gives some details of the public bath of which he was the promoter in Frankford, one of the wealthy resident districts of Philadelphia. This letter says:

"MY DEAR SIR: The building of a free bath house for the use of the public is one of the most popular measures that can be opposed in Philadelphia, and if you build one in Fort Wayne you will wonder why you did not build it years ago. The one I was instrumental in having built in Frankford, Philadelphia, cost $14,000. There are now ten in use in this city from June 15 to October 15; Mondays and Wednesdays for women and the rest of the week for men and boys. There are not one-half enough of these public bath houses built to accommodate the demand. In the one at Frankford, where I live, 3,500 persons have been known to avail themselves of its privileges in one day. This is the first one in Philadelphia to have the hot water attachment. There are six needle (shower) baths for hot water. If it is possible I will send you a set of plans and specifications. The one in Frankford is built on a lot 100x130. The cement pool is 80x35. If I had it to go over it would be 100x40. The depth is gradual from four feet to seven feet. The water flowing in and out constantly keeps it clean and fresh. Twice in the week the pool is emptied and washed with large fire hose to thoroughly cleanse it. The entire inside is cement. A broad walk extends around the pool and the small closets in which to dress and undress are arranged around the two sides and rear end. The front has apartments for offices and toilet rooms for each sex. The keeper gets $600 per annum and his wife must be on duty the two ladies' days free of cost to the city. Very truly,

"J. EMORY BYRAM."

SWEPT THE STATE.

Democrats Carry Alabama by 60,000 Majority.

Little Interest Taken and a Light Vote Polled--Populists Lose in All Their Strongholds.

BIRMINGHAM, Ala., Aug., 2.—Sixty out of sixty-six counties in the state have been heard from as to yesterday's election, though the returns from none are as yet complete, owing to the slow method of counting and returning.

Reports from the partial returns received indicate a democratic majority of between 50,000 and 60,000.

Jefferson county gives a democratic majority of about 4,000. In the city of Birmingham 2,000 votes out of a registration of 3,500 were polled. Of these the democrats received 1,800. The independent county and legislative candidates in this county were badly beaten.

Reports from over the state show that the populists have lost heavily in all their strongholds.

MYSTERIOUS ASSAULT.

Three Members of a Baltimore Family Receive Fatal Injuries.

BALTIMORE, Md., Aug. 2.—A mysterious assault which may result in a triple murder was made upon a family residing in the lower part of the city early this morning. The victims are:

Mrs. Hannah Lillis, widow, aged thirty-three; Winnie Lillis, aged seven, and Mrs. Bessie Whetler, aged twenty-nine.

Mrs. Whetler, who is separated from her husband, boarded with Mrs. Lillis, who with her three children lived at 211 South Lemmrds alley, near the wharves.

Shortly after daybreak the police heard cries of "Murder," and hastening to the house, found the women and the little girl bleeding and unconscious from wounds about the head, evidently inflicted with the blunt end of an axe. The only persons who were able to furnish any information regarding the affair were two Bohemians who claim to have seen a negro leave the house and who set up the outcry which alarmed the police. All the victims are in the hospital and the physicians think they have little chance of recovery. No motive can be as for the crime.

Challenge for the America's Cup.

LONDON, Aug. 2.—The honorary secretary of the Royal Ulster Yatch club, Mr. Kelly, has telegraphed to the London office of the Associated Press saying that the challenger for the America's cup is Sir Thomas Tipton. Sir Thomas Lipton is a new comer in yachting circles. His yacht is to be named the Shamrock.

Grand Circuit Races Postponed.

COLUMBUS, Ohio, Aug. 2.—The first day's racing of the Grand circuit meeting here was postponed on account of heavy rains. There will still be five days' events, extending over Saturday.

NEW LAWS NEEDED.

Extra Session of Congress May Soon be Called.

It Depends Much on the Treaty With Spain--Statutes Touching the Army Will Need Revision.

WASHINGTON, Aug. 2.—President McKinley will call an extra session of both houses of congress as soon as Spain accepts the terms of peace offered by the United States.

It has always been understood that the senate would be convened as soon as the treaty of peace was ready to be acted upon by that body. The attention of the president has been called, however, to a situation which makes the assembling of the entire congress necessary. This situation can be explained in a few words.

Under the law which provides for the raising of the volunteer army, that army goes out of existence as soon as the war ceases.

When this law was framed it was not for a moment supposed that after the war had ended there would be any necessity of keeping the army intact. The developments of the war made it very evident that instead of sending the army back to civil life, fully 100,000 men will continue to be needed.

It is the present intention to distribute no fewer than 50,000 soldiers throughout Cuba, with 30,000 in the Philippines and probably 20,000 in Porto Rico. Under the law, as soon as hostilies cease the volunteer army is disbanded and the regular army goes back to its peace footing, thus leaving only 27,000 men in the service. This is a total far too small for the work that will be required.

Consequently the ai: of congress will be needed to frame new laws which will keep an adequate army for garrison purposes.

In addition to this, laws must be passed to meet the new requirements of government in the Philippines and Porto Rico.

The president is naturally averse to calling congress together during the hot weather, and it may be decided that the war is not ended until the senate has ratified the treaty of peace.

In this case congress will not meet until the first or middle of September, as it will take at least a month or six weeks for the full details of the treaty to be discussed and framed. The present outlook is, however, for an extra session at a much earlier period in the hope that its work can be concluded before the tall campaign has reached its height.

WANT MORE SPEED.

New Battleships May be Made Faster.

Displacement to be Increased Two Thousand Tons More and Speed to be Eighteen Knots.

NEW YORK, Aug. 2.—A special to the Times from Washington says: The question of the speed of the three battleships provided for by the new naval program has been reopened again.

The proposition now under consideration is to give the proposed ships a displacement of 13,000 tons, instead of 11,500, and to fix their minimum speed at 18 knots, instead of 16. Chief Engineer Melville has been asked to submit designs of the new improved machinery, including water-tube boilers, which he proposes to install, with a view to developing an 18 knot speed. These designs ready, Chief Constructor Hichborne will set his bureau of construction and repair to work on designs for a hull to accommodate that machinery, with the requisite coal space and the desired batteries.

The new scheme contemplates a main battery of 12-inch and 8-inch guns, instead of 13-inch and 6-inch, as in the present designs, this change being prompted only by the lessons learned from the Santiago engagement.

A further, and a most important change, proposed to be made in the new ships, is the addition of copper sheathing. At a meeting of the board of construction it was unanimously voted to have the new battleship sheathed with a view to preventing the fouling of their bottoms and the loss of speed resulting therefrom. This is a reversal of the board's position on the sheathing question. It has stood heretofore three to one against sheathing the bottoms of the battleships, Commodore Hichborne being the only advocate of the reform.

The experience of the fleet in southern waters during the present war, when the battleships and cruisers have steadily lost what speed they started with, the result of marine growth on their hulls, has convinced the board that, costly as the sheathing is, it will be economical in the long run, since it will enable the ships to retain their speed for an indefinite time.

Communication With Ponce Re-opened.

NEW YORK, Aug 2.—The Western Union Telegraph company's central cable office is advised by the West Indian and Panama Telegraph company that communication with Ponce was re-opened yesterday, under censorship at Ponce by the United States government. Messages for the interior by that route will not be accepted. The San Juan cable is still open under censorship by the Spanish government.

HE WAS IN DISTRESS.

Linares Tells of the Suffering of His Troops.

There Was No Hope for His Half fed and Miserable Soldiers--Surrender Was Inevitable.

(Correspondence of the Associated Press.)

GUANTANAMO, Province of Santiago de Cuba, July 25.—An official report of General Linares to the Madrid government, transmitted on July 13, is full of pathos, as it tells of Spaniards thousands of miles from home striving to defend property which the owners have deserted. The report sent by cable on July 13, was addressed to the minister of war.

It was translated for the Associated Press by Commodore Schley. The text in full is as follows:

"Official cablegram, July 12, 1898. To the Minister of War, from the General in Chief of the Division of Santiago de Cuba: "Although confined to my bed by great weakness, and in much pain, the situation of the long suffering troops here occupies my mind to such an extent that I deem it my duty to address your excellency, that the state of affairs may be explained.

"Enemy's lines very near the town on account of the nature of the ground; our lines are in full view from them. Troops weak; sick in considerable proportions not sent to hospitals owing to the necessity for keeping them in the intrenchments Horses and mules without the usual allowance of forage. In the midst of the wet season, with twenty hours daily fall of rain in the trenches, which are simply ditches dug in the ground, without any permanent shelter for the men. The men have nothing but rice to eat and no means of changing or drying their clothing.

"There have been considerable losses. Field officers and company officers are killed, wounded or sick, and deprive the troops of necessary orders in critical moments.

"Under these circumstances it is impossible to fight our way out, because in attempting to do so our force would be lacking one-third of the men, who could not leave, and we would be weakened besides by casualties caused by the enemy, resulting finally in a veritable disaster without saving our diminished battalions.

"In order to get out, protected by the Holquin division, it will be necessary for them to come and break the enemy's lines in one place, so that my forces may break through in another, both actiug in conjunction. For this operation the Holquin division will require eight days, and will have to bring a large amount of rations, which it is impossible to transport. The solution of the question ominously imposed upon us.

"Our surrender is inevitable, and we can only succeed in prolonging the agony. The sacrifice is useless, and the enemy understands this. They see our lines and theirs being well established close up. They tire out our men without exposing themselves. Yesterday they cannonaded us on land with such an elevation that we were unable to see their batteries, and from the sea by the squadron, which had perfect range and bombarded the town in sections with mathematical precision.

"The complete exodus of the inhabitants, insular as well as peninsular, includes the occupants of the public offices, with few exceptions. There only remain the clergy, and they yesterday started to leave the town with the archbishop at their head.

"The defenders here cannot now begin a campaign full of enthusiasm and energy. They came here three years ago, struggling against the climate, privations and fatigue, and now they are placed in these sad circumstances where they have no food, no physical force, and no means of recuperating. They are defending the property of those that have abandoned it and those that now are being fed by the American forces.

"The honor of arms has its limits, and I appeal to the opinion of the whole nation as to whether these long suffering troops have not kept it safely many times since May 18, when they were subjected to the first cannonade. If it is necessary that the sacrifice be endured for reasons of which I am ignorant, or that some one shall assume the responsibility of the unfortunate termination which I have anticipated and mentioned in a number of telegrams, I faithfully offer myself on the altar of my country for the one, and for the other I will retain the command for the purpose of signing the surrender, for my modest reputation is of little value as compared with the country's interests."

GREAT FUEL FIELDS.

Copper River Miners Abandon Gold Mines to Locate Coal Claims.

PORT TOWNSEND, Wash., Aug. 2.—Letters received here state that many prospectors between Copper river and Cooke's Inlet, Alaska, have abandoned their search for gold and are locating coal claims.

The country is said to be one mass of coal, which is claimed to be an excellent quality of lignite. Near Graham's bay, W. A. Moore found a deserted coal mine with appliances showing the mine evidently had been worked by Russians before Alaska was ceded to the United States.

BIG CROWDS.

Robison Park Theatre an Attractive Place.

Notwithstanding the fact that there were no excursions to Robison park yesterday, the attendance at the theatre was good, nearly every seat being occupied when the curtain went up, both afternoon and evening. The performance is good—one which pleases the masses better than anything yet seen there—and it will continue to draw big audiences during the week. Barry and Hague appear to be the favorites with many of the patrons of the show, though none of the performers fail to draw forth liberal plaudits. An evidence of the entertaining character of the show is the fact that many who attended it Sunday were again there yesterday and last night and showed by their action that they enjoyed it very much.

TO FREE CUBA

And Not to Grab Land the Purpose of This War.

That is the View of Senator J. K. Jones and He is Opposed to Seizing the Philippines.

ST. LOUIS, Mo., Aug. 2.—Senator James J. Jones, of Arkansas, chairman of the national democratic committee, who was in the city conferring with prominent members of his party, had this to say concerning our foreign policy before he left for New York:

"The United States is pledged to the world that an independent and stable government shall be established in Cuba. When I voted for that resolution nothing was said about imperialism. This country cannot afford to go back on its pledge. These are my private views, which I believe are those of the democratic party.

"I do not know what conditions may arise respecting Cuba, but I have never known a Spanish-American community capable of self-government and it is possible that, since we set out to free Cuba from Spanish domination, we may be compelled to pursue a course which will eventuate in the control of the island.

"While I am not in favor of the acquisition of territory in the tropics, this course would be less objectionable than any other.

"Cuba is adjacent to the United States, as is Porto Rico, but the thought of annexing the Philippines is preposterous, undemocratic, and not in accordance with the principles handed down from the days of Thomas Jefferson

"We begun this war to secure the independence of Cuba and nothing more. When we have accomplished that end and Spain has indemnified us for the enormous war expense, our mission will be done."

A RAISIN POOL.

California Growers Preparing to Form a Combine.

FRESNO, Cala., Aug. 2.—President Kearny, of the California Raisin Growers' association, announces the plan to pool the raisin products in the state. He stated that 75 per cent of the crop in Fresno, Tulare and Maderia and Kings countries has been signed, and that over 50 per cent. of the crop of Kern county has been thrown into the pool. Agents are now at work in Southern and Northern Cslifornia and with the contracts they sezure the association will control 90 per cent. of the output.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at Drier & Bro.'s drug store. Regular size 50c and $1.00. Every bottle guaranteed.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky." Sold by Dreier & Bro., druggists.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

CONSULTING A WOMAN.

Mrs. Pinkham's Advice Inspires Confidence and Hope.

Examination by a male physician is a hard trial to a delicately organized woman.

She puts it off as long as she dare, and is only driven to it by fear of cancer, polypus, or some dreadful ill.

Most frequently such a woman leaves

a physician's office where she has undergone a critical examination with an impression, more or less, of discouragement.

This condition of the mind destroys the effect of advice; and she grows worse rather than better. In consulting Mrs. Pinkham no hesitation need be felt, the story is told to a woman and is wholly confidential. Mrs. Pinkham's address is Lynn, Mass., she offers sick women her advice without charge.

Her intimate knowledge of women's troubles makes her letter of advice a wellspring of hope, and her wide experience and skill point the way to health.

"I suffered with ovarian trouble for ceven years, and no doctor knew what was the matter with me. I had spells which would last for two days or more. I thought I would try Lydia E. Pinkham's Vegetable Compound. I have taken seven bottles of it, and am entirely cured"—MRS JOHN FOREMAN, 26 N. Woodberry Ave., Baltimore, Md.

FORGED SIGNATURES

Scalpers Use the Name of Commissioner Donald,

Hundreds of Tickets Are "Doctored" in Violation of Law—Local and Personal Gossip.

The Central Passenger association yesterday discovered that some ticket brokers were handling a number of tickets on which the signature stamp of Commissioner Donald, the official stamp of the association and the perforating stamp used to validate the return portions of tickets had all been forged, says the Chicago Record. The tickets are the return portions of tickets from Chicago to eastern points, issued on account of the recent meeting here of the Young People's Christian union of the Universalist church. The return limit on these tickets expired July 21, but tickets deposited at the offices of the association were extended until August 10. The railroad men claim that the brokers bought a lot of tickets which have now expired, and in order to get rid of them the necessary stamps on the back had to be supplied to make them pass as extended tickets. In all some 3,000 tickets were sold for the meeting, of which about half were deposited for extension. To prevent the use of these forged tickets the association has arranged to give all holders of deposited tickets an order upon the railroads for new tickets instead of using the return portions of the original tickets. The forged stamps were very skillfully executed, and only the closest examination could distinguish them from the originals.

SUMMER WORK.

Lines Followed by Associated Charities During Hot Weather.

Not so Many Cases of Absolute Want as in the Winter, But Some Families Need Sympathy and Encouragement.

A great many persons do not realize the amount of work done by organized charitable associations during the summer months, thinking that effort is necessary only during the winter when people are out of work and unable to secure necessities for themselves and their families. It is a mistaken idea, and one of the most difficult with which those engaged in charitable endeavor have to combat. While the wealthy or well-to-do may be enjoying vacations, the poor we have always with us. They may not be in the distress that cold weather brings them, but they need sympathy, encouragement and attention just as well as at any other season. True, there are not so many cases of absolute want, yet there are some and these must be cared for. Then again, the principle employed by those who have made charitable and benevolent work a study is that it is much better to make a family self-supporting and independent, if possible, than to dole out alms, little by little, until the recipient finally loses all desire to make something of himself and seeks to live by what he can secure from others. A well organized society, prepared to meet emergencies as they arise, ready for action throughout the entire year, can certainly work more acceptably and efficiently than if it disbanded three or four months during the year, and then required two or three months of the remaining time to get in proper working order.

The work sought to be done by the Associated Charities requires constant attention. While the demands for aid are not so great during the summer, many things require attention. The cultivation of garden tracts, under supervision of the association, is in itself no small affair. The labor yard also is kept open, that there may be no occasion for men to traverse the streets, demanding help from the people upon the plea that they can get no work by which to earn a meal or lodging. Friendly visitation must be done in summer and often better results can be reached because the dependent or partly dependent can be given counsel, advice and urged to lay aside, during the time they are earning wages, something to help them when the work grows slack or ceases altogether. In fact, various methods and plans can be employed to ameliorate the condition of those who must be looked after so that the distress which comes with the advent of winter may be greatly lessened.

This is the line of work engaged in by the Associated charities during the summer, and those who have given the matter consideration are convinced that good results have been obtained. To the greatest efficiency, requires the hearty cooperation of the people, and it is encouraging to know that as the objects of the organization are becoming better known, this co-operation and encouragement are being more heartily extended.

Drillers are at work in the sand in Well No. 2 at New Haven and it is anticipated that oil may be found at almost any hour. Representatives of the Standard Oil company and other corporations are watching the work with interest.

THE CAPTAIN'S KICK.

Capt. W. F. Ranke Has a Statement to Make.

Says the Twenty-eighth Battery Has Had a Square Deal and He Has No Complaint to Make.

Recently THE SENTINEL's special correspondent at Camp Thomas wrote to this paper that the boys of the Twenty-eighth battery were feeling disappointed and sore because they had not been ordered for service in Porto Rico, and that there was a belief that it was a question of "pull" as to what organizations were given opportunity to go to the front. He also stated that the Twenty-eighth's trained artillery horses had been taken to equip other batteries. Now Captain Ranke writes to say that everything is all right and satisfactory and that he wishes it understood that the battery was not held at Camp Thomas for inefficiency. That will be readily believed, for next to the Indianapolis battery the Fort Wayne battery ranks first in efficiency. Captain Ranke's letter follows:

HEADQUARTERS TWENTY-EIGHTH LIGHT BAT., IND. VOL.
CAMP GEO. H. THOMAS,
CHICKAMAUGA PARK, GA.,
July 27, 1898.

To the Editor of THE SENTINEL:

The local correspondent of your paper has seen fit to send you some camp news (?) which does the battery and its officers an injustice. That anyone could send such rot and put his name to it is beyond my conception. There are eleven batteries here. Out of these five, and the Fort Wayne battery amongst them, have been having long marches, mounted drills and special instructions, with the expectation that five batteries would be called on for the Porto Rico expedition. To our sorrow the order came for four batteries only, and I, being the junior officer, was compelled to remain. On account of sickness of horses the four batteries were short of them and I, having broken horses, was asked to turn over fifteen. This I cheerfully did, knowing that the batteries could not take new horses on a campaign. All the remaining batteries had to furnish one thing or the other to equip the outgoing batteries. Battery A, Georgia, lost two thirty-two-inch breach-loading guns; another, an Ohio battery all their harness. As it was the four batteries were left only partially equipped.

The boys did go to Lytle after a car load of horses, but it was found out later that they had been shipped from Ohio for the Ohio artillery, and through a mistake at the office we were told they were ours.

The Zollinger battery today is the only battery on the grounds that ever participated in forced marches or that had mounted drills.

I am so sorry that the article appeared, as so many of our friends have written us regarding the same. Those not in touch with the members of the battery might think we had been set back through inefficiency.

If the correspondent had a kick coming the Fifth regiment, Illinois, surely has one. They got orders for Porto Rico and broke camp at 2 a. m. and marched out of Camp Thomas at 6 a. m. for Rossville. It was raining in torrents the entire march, but not a murmur, all were glad to serve their country, but when they arrived, to their sorrow, they were told that the order was recalled. I never in all my life saw such a sore crowd.

I hope that the above will explain all about us being left (?) and sat on.

WM. F. RANKE,
Captain Commanding.

DEATHS AND FUNERALS.

John Shutt, of Spencerville, father of Dr. J. M. Shutt, of this city, died at his home Sunday morning. Mr. Shutt had been ill for several weeks and had been failing for some days. He arose on Sunday morning and went to breakfast with the family. Before he had finished the meal, he asked to be led back to the bed. After awhile he called his grandson to him and said that he was dying. A message was sent to Dr. J. M. Shutt and he hurried to the bedside of his father, to find that life had fled.

John Shutt was born in Starke county, Ohio, on January 29, 1817. He was married to Miss Elizabeth Rhoades on December 19, 1839. The wife still lives to mourn the death of a most devoted husband. Nine children were born to the union, and of those five still survive. They are Dr. J. M. Shutt, of this city; Dr. A. J. Shutt, of Spencerville, Ind.; Dr. L. A. Shutt, of North Manchester; Mrs. Martin Waters, of Antwerp, Ohio, and Mrs. William Davis.

The deceased was a member of the Lutheran church and had been a communicant of that faith since 1867.

HASS.

The funeral of Mrs. Elnora Hass will take place at 2 o'clock Wednesday afternoon from the Wayne street M. E. church.

WILL BE BENEFICIAL.

An Institute for Sunday School Teachers to be Held in Fort Wayne.

The Allen County Sunday School association has made arrangements to hold a teachers' institute in this city, August 24th to 27th, and has secured Miss Annie S. Harlow, of Philadelphia, as principal instructor. Miss Harlow has spent many years as primary worker, and is at present superintendent of a primary department that enrolls over 900 pupils. It is hoped that all the Sunday school teachers in the city and county schools will take advantage of this four days' institute.

Kendallville Sun: "Rev. Gus Mertz, Edward Stetor and Ed Wehmeyer, of Fort Wayne, are visiting friends in the city and are the guests of Henry Wehmeyer and family."

If every woman who expects to become a mother would heed and read that great book, "The People's Common Sense Medical Adviser," by Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., there would be stronger mothers and healthier, happier children in this world.

In this grand volume several hundred of its thousand pages are devoted to teaching women how to take care of themselves during every trying and critical period of their lives and especially at the time of approaching motherhood.

The author of this remarkable work has had a lifetime of practical experience in treating the special diseases and weaknesses of women, and is recognized as one of the foremost of living experts in this particular field of practice. His "Favorite Prescription" is the most wonderful medicine ever invented to restore natural organic strength and power to the delicate feminine structure which is most intimately concerned in motherhood.

Taken during the time of anticipation it deprives this ordeal of all its accustomed terrors and dangers; makes the coming of baby absolutely safe and comparatively painless; renders the mother strong and cheerful, and helps to endow the child with a strong, healthy constitution.

Mrs. Mabel Jordan, of Swofford, Lewis Co., Washington, writes: "I took Dr. Pierce's Favorite Prescription until the very last day. We now have a fine, plump little girl over two weeks old. I suffered less pain than with any of the others, this being the sixth child, and she has good health. I got up on the tenth day and dressed myself—something I could not do with the other babies. Have been gaining in strength every day and feel well, all due to God and to Dr. Pierce's Favorite Prescription."

For the "Medical Adviser," send 21 one-cent stamps, to cover cost of mailing *only*, or for cloth-covered copy 31 stamps, to Dr. R. V. Pierce, Buffalo, N. Y.

The Fort Wayne Mutual Benefit association will meet tomorrow night in their new rooms on the third floor of No. 140 Calhoun street.

J. Wesley Hill, of Ogden, Utah, is in the city. He is interested in mining and is trying to induce young men to go west and seek employmen in mines.

Charles Thayor and Carl Upmeyer have returned from Rome City after a two weeks' outing. They report a general good time and a large catch of fish.

The people of the St. Vincent's church, located one-half mile west of Robison park, will give a picnic Thursday. Judge O'Rourke and J. M. Robison will speak.

Patrolman Pat Madden, who has been sick for a week, reported for duty this morning, but had to return home after an hour's service. He is still too ill to patrol his beat.

Ben Kenney, of Lexington, Ky., is registered at the Wayne. Mr. Kenney at one time handled the reins over Nancy Hanks and is here with a string of horses which start in the races next week.

A unique entertainment entitled, "The Queen Cantata," will be given at the Trinity M. E. church on Thursday evening. Prof. I. H. Bailers, of Pittsburg, who has successfully given the cantata in several Ohio cities, is in charge. The program will appear later.

Casper Orebaugh, of Muncie, state organizer of the Amalgamated Association of Street Railway Employes, was in Fort Wayne yesterday and today looking up the interests of his association. A meeting was held last evening and was fairly well attended. It is the desire of the association to build up the old division rather than to organize a new. Mr. Orebaugh returned to Muncie this afternoon.

Contracts Approved for the Construction of Pavements.

The Board of Works Visits the South Side Streets and Make an Investigation --Notes.

The board of public works this morning met in special session and approved the contracts and bonds of the new asphalt streets to be built by the Alcatraz Construction company on Fairfield avenue, Cass and High streets.

Yesterday afternoon Messrs. Eggemann and McCracken, of the board of works, and City Civil Engineer Randall visited the south side streets and inspected the work being done there. The pavement on East Creighton avenue was found to be in very bad shape. Water had arisen underneath the foundation and caused the pavement to sink in many places and there were many defective spots. Mr. Guelich was present and showed the board where he believed the subsoil would not hold the foundation and pavement. He will build a trench and carry the water into a manhole at the corner of Clinton street. The board will not accept the work until it is satisfactorily done. Suttenfield street was visited and the pavement was found to be vastly superior to that on Creighton avenue. Binder is being laid on Woodland avenue and on Hoagland avenue the concrete is not all laid.

BOARD OF WORKS.

At the meeting of the board of public works yesterday afternoon, a resolution was passed, providing for nearly a mile of lateral sewers in the northwestern part of Bloomingdale. The engineer's plans provide for sewers on Putnam street, from the alley west of St. Mary's avenue to the alley west of Franklin avenue; in the alley west of Franklin, from Spring to Archer; alley between Spring and Huffman, from the alley west of Franklin to the west line of Archer's addition; alley between Huffman and Putnam, from the alley west of Franklin to the west line of Archer's addition; alley between Putnam and Archer, from the alley west of Franklin to the west line of Archer's addition.

Plans were also submitted, providing for sidewalks on the west side of Fairfield avenue, from Morgan avenue to Nuttman avenue. Resolutions were immediate for both these improvements.

A petition was presented, asking that Poplar street be widened and extended from its present terminus at Oakley street to the first alley west. No action was taken.

The bonds of Henry Ehle for building a sidewalk by private contract, and Conrad Nern and Nicholas, sewer builders, were approved.

NOTES.

Comptroller Berghoff, while in Chicago, arranged for bicycle tags to be used for the year beginning September 1. The tag will be of aluminum the same as at present, but the design will be a star with a big letter "B" inscribed thereon. In this letter will be the date and the number of the wheel.

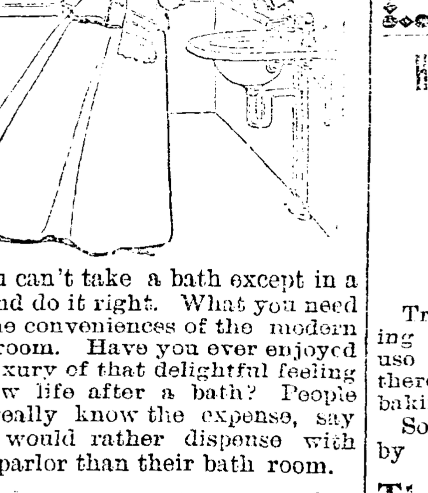

The council committee of the whole will meet tomorrow evening to consider the annexation of certain south side property.

Notice.

On account of going out of business, I will sell my groceries at and below cost. I also have for sale horse and delivery wagon and buggy; also house and lot on West Jefferson street.

THE PRICE OF PEACE.

Official Statement of the President's Demands Upon Spain.

NO WORD YET RECEIVED FROM MADRID.

WASHINGTON, Aug., 2.—The following is an official statement given out by authority of the president today as to the terms of peace offered by the United States:

"In order to remove any misapprehension in regard to the negotiations as to peace between the United States and Spain, it is deemed proper to say that the terms offered by the United States to Spain in the note handed to the French ambassador on Saturday last are in substance as follows:

"The president does not put forward any claim for pecuniary indemity, but requires the relinquishment of all claim of sovereignty over or title to the island of Cuba, as well as the immediate evacuation by Spain of the island; the cession to the United States and the immediate evacuation of Porto Rico and other islands under Spanish sovereignty in the West Indies, and the like cession of an island in the Ladrones.

"The United States will occupy and hold the city, bay and harbor of Manila pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippines. If these terms are accepted by Spain in their entirety, it is stated that commissioners will be named by the United States to meet commissioners on the part of Spain for the purpose of concluding a treaty of peace on the basis above indicated."

SPAIN HAS NOT MADE HER REPLY.

WASHINGTON, Aug. 2.—Up to the time the cabinet met today no word had come from Spain either directly or through the French ambassador in response to the demand of the United States. Notice was taken of the statement from Madrid that a further explanation had been asked by the Spanish government, but this has not been directed so far to either the state department or the French embassador. The allusion to "further explanations," however, is regarded as a rather hopeful sign as tending to show a disposition on the part of the Spanish government to close early with our terms, for it is said that the expectation was that the Spanish rejoinder would take the form of a counter proposal, the effect of which would be to lead to diplomatic sparring. It has been admitted at last by members of the administration that the terms of peace laid down by the United States had been practically stated with accuracy in the press dispatches, and realizing the futility of further concealment some official characters was to be given to the press statements by formal declaration from the white house.

Some such plan as that has been in contemplation for several days in deference to pressing requests, not only from the newspapers, but from a number of public men who felt that the people should be taken more thoroughly into the confidence of the administration.

It was represented on the other hand that the negotiations might be seriously jeopardized by the ill effect in Spain of a publication on the terms imposed. However, as had been already stated, the full and accurate newspaper publications descriptive of the peace conditions have made it unnecessary to maintain secrecy longer, and when the cabinet met it was with the understanding that a short synoptical statement touching the matter, though not including the text of the peace terms, should be made public.

It is understood to be the present intention of the administration to assume liability for all the indebted claims preferred by American citizens against Spain, on account of injury to personal property in Cuba. Some part of this liability may be imposed upon the government of Cuba later on, when that shall have been established, and to include such cases as can be directy charged up against the insurgents, where they have destroyed the property of American citizens in the course of their operations.

The assumption by the victorious nation of liability for private claims is not new in the arrangement of peace conditions, but on the contrary is rather in the line of the usual practice. At the conclusion of the Mexican war the United States assumed all such claims in behalf of American citizens, and established a special tribunal for their adjudication and payment. The same course was pursued in 1819 in effecting a settlement of the Florida troubles with Spain; though the decisions announced by the special tribunal were a source of litigation and negotiation clear down to the present time.

The amount of these claims against Spain in behalf of American citizens who suffered in Cuba was $15,000,000 at the date of the destruction of the Maine. It is estimated that this total has been increased to $20,000,000 since that time, and no doubt is entertained that there are many other claims of large amounts that have not yet been presented. Of course it is not possible at this stage to indicate what proportion of the claims are justly chargeable to the acts of the Cuban insurgents, and it is known that in many cases the claimants themselves were unable to tell the source of the damage to their property, whether by Spanish troops or the insurgents.

CLARENCE COOK

Seems to Have Struck it Rich in the Gold Fields.

E. W. Cook, His Brother, Received a Letter Written at Morris Creek, Alaska.

E. W. Cook this afternoon received a letter from Clarence Cook, writen June 25 at Morris Creek. Rich discoveries in that vicinity caused a stampede of gold hunters to Morris Creek and Clarence "got in on the ground floor." He writes that he has a claim from which he expects a rich yield. He has written a letter to THE SENTINEL, which will be printed as soon as received, and no doubt will be read with interest by his numerous friends.

Clarence had not been heard from since May 5 and there was considerable anxiety as to his whereabouts and some fears were entertained that his health might have been affected. He is "chumming" with the correspondent of the Chicago Herald.

LOCAL LINES.

Mr. and Mrs. Charles Miller, of Peru, visited in Fort Wayne yesterday.

Miss Kittie Lucas, of Indianapolis, is visiting friends and relatives in the city.

Hon. J. C. Branyan, a prominent Huntington attorney, was registered at the Randall hotel today.

Mrs. Graham, of Findlay, Ohio, has returned home after a pleasant visit with Dr. and Mrs. J. E. Miller.

Miss Marguerite M. Kline, of Akron, Ohio, is the guest of Mr. and Mrs. Carl White, of East Suttenfield street.

Miss Irma Becker will return tomorrow from Ligonier, and will leave next week for her home in Nebraska.

Miss Bessie Eckert celebrated her birthday anniversary last evening by entertaining a party of friends at her home.

William Quillinan and sister, Margaret, of Chicago, are visiting in the city, the guest of Miss Nellis Quillinan, of No. 23 Colerick street.

Henry Brown, Perry Stahl, Henry Lauer, Otto Hold, William Jackson, Leon Levi and John Clever have left for Blue lake, where they will camp out for two weeks.

John Bitsinger, foreman of the Huntington Herald office, was called to the bedside of his father yesterday. Mr. Bitsinger, sr., is lying very low at his home on East Wayne street, and his condition is considered dangerous.

Miss Gertrude Miller, daughter of Mr. and Mrs. F. N. Miller, of No. 55 Charles street, gave a birthday party last evening in which about twenty of her young friends participated. Mrs. Miller served supper on the lawn. The hostess was twelve years old yesterday.

Mrs. Emily Salisbury, of No. 27 Baker street, wife of the stone cutter, is visiting her parents in Chicago. When her visit is over she will make a tour of the lakes, visiting Niagara Falls and all the principal cities of the east. Her friends wish her a pleasant and safe journey.

J. H. Aiken writes G. W. Jones that he is having a fine time fishing in the St. Clair river and sends Mr. Jones eighteen pickerel, forty-eight bass and twenty-three two-pound perch. He says the largest fish caught thereabouts was 13½ feet long and weighed 236½ pounds. Mr. Aiken's reputation for veracity is such that no person will dispute the truth of his assertions.

SNUBS THE EMPEROR

Count Herbert Bismarck Ignores His Ruler.

William May Not Attend the Last Rites.

Emperor's Requests Flatly Turned Down.

The Iron Chancellor's Son Manifests a Disposition to Take Up His Father's Feud.

BERLIN, Aug. 2.—The Neusti. Nacrichten today publishes a dispatch from Friedrichsruhe, which says:

Prince Herbert Bismarck is quite broken down by the worry and vigils of the past few days.

Professor Lenbach says he has not been allowed to paint a picture of the deceased, and a cast of his features was not taken.

As indicating how well the deceased felt on Thursday, it is said that when going to bed at 11:30 he said:

"Well, now I shall have a sleep."

It seems doubtful whether Emperor William will go to Friedrichsruhe owing to the attitude of Prince Herbert Bismarck, who not only has not heeded his majesty's desire to have the remains of his father buried in Berlin, but who seems to have refused Professor Lenbach permission to paint a portrait of the deceased, as the emperor desired.

Besides this, the coffin containing the remains of Prince Bismarck has been closed somewhat hurriedly.

Emperor William leaves Kiel at 3 o'clock this afternoon and will reach Potsdam at 11 o'clock.

The funeral service in honor of the late Prince Bismarck will take place on Thursday morning in the Emperor William's memory church. The federal council, members of the reichstag and of the Prussian diet, and the state and municipal authorities, will be invited.

STARTS FOR FRIEDRICHSRUHE.

KIEL, Aug. 2.—Emperor William and the empress left the imperial yacht Hohenzollern at 2:15 p. m. today, saluted by the warships here, and took a special train for Freidrichsruhe.

THANKS THE PRESIDENT.

BERLIN, Aug. 2.—The United States Ambassador, Andrew D. White, has received the following message from Prince Herbert Bismarck:

"We thank your excellency most devotedly for the warm sympathy which the president, in the name of your government and people, caused to be expressed to our family through you. Receive at the same time my heartiest thanks for your personal condolences."

Memorial service in honor of the late Prince Bismarck are being organized throughout the country.

The imperial chancellor, Prince Hohenlohe was the last person permitted to look upon the remains of the former chancellor before the coffin was closed.

Strange rumors on that subject are current, and also as to the cause of the emperor changing his mind and going to Freidrichsruhe. These rumors are puzzling the papers, which continue to print warm eulogies of the deceased, though the socialistic Verwaertz, accuses Prince Bismarck of working always in the interests of capitalism, adding that whenever he dealt with moral and intellectual factors he failed.

The Polish press declares Prince Bismarck was the greatest enemy of the Poles.

BIG STRIKE ON.

Nail Mill Men of Cleveland Prepare to Battle With the Trust.

CLEVELAND, Ohio, Aug. 2.—A strike was formally declared on today by the Federated Wire Trades at the works of the H. P. Nail company, and American Wire company, both of which are now under control of the recently formed Wire and Nail trust.

The strike, with the rod mill and yard men of the American company, who will join it, will throw about 2,100 men out of employment. Of these 900 are from the H. P. company, and 1,200 from the American works. The strikers have decided not to pay any attention to the old consolidated, or Baackes mill, which is also controlled by the trust, and where the men are all working.

The cause of the strike is the alleged general cut of 33⅓ per cent in wages and a threatened cut of 20 per cent more.

CIVIL SERVICE.

Examination for Postoffice Service Will be Held Here in October.

The United States civil service commission announces than an examination will be held for the postoffice service in this city on some date between October 1 and 15, 1898. All persons who desire to be examined should apply to William J. Hess, the secretary of the board of examiners, at postmaster's office, for application blanks, and full information relative to the scope of the examination. Applications on Form 101 must be filed in complete form with the secretary of the board prior to the hour of closing business on September 1; otherwise the applicants can not be examined. Soon after filing applications, applicants will be notified as to the exact date of examination.

THEY TRUST DEWEY.

But Philippine Insurgents Want to Know What's the Program.

MERRITT AND AGUINALDO MAY CLASH.

NEW YORK, Aug., 2.—A cablegram to the Journal from Cavite, July 30, via Hong Kong, reports that the correspondent has spent two days in interviewing insurgent leaders. As a result, the correspondent says, he discovered evidences of jealousy of the American invasion, but no actual anti-American feeling. The dispatch adds:

"Aguinaldo is respectful towards Admiral Dewey, General Merritt and Consul Wildman, and will go any length to retain Wildman's good opinion, but he holds back from giving energetic help to the United States forces.

"He will give only a negative sort of assistance until he knows the exact form which the American policy will take. He is disturbed by telegraphic reports that the United States will abandon the islands to Spain.

"There are some indications of a clash between General Merritt and Aguinaldo."

FOURTH EXPEDITION REACHES HONOLULU.

SAN FRANCISCO, Aug. 2.—The Call says: The steamer Doric, which arrived late last night, brought news of the arrival at Honolulu of the fourth Manila expedition. The Doric left Honolulu last Monday. The transports arrived there the day before with all on board well and on Monday the boys in blue were ashore and were given a royal reception and a grand feast.

The fourth expedition left here July 15 and reached Honolulu without mishap to either of the vessels.

Great preparations are being made at the islands for a grand celebration of the arrival of the annexation commissioners and the raising of the stars and stripes.

FIVE THOUSAND MEN SAILED SINCE MERRITT.

SAN FRANCISCO, Aug. 2.—In reply to a dispatch received from General Merritt, now at Cavite, General Merriam today cabled that since the departure of the governor general of the Philippines five transports, with 4,897 men, have sailed from this port.

Scarcely had the message been sent before General Merriam received word from the war department that General Merritt had asked to have his command increased from 20,000 to 30,000 troops, in order to be able to meet any emergency which may arise on account of the hostile attitude of Aguinaldo and the insurgent forces.

GREAT FORCE WILL BE NEEDED AT MANILA.

WASHINGTON, July 2.—Although the war department officials will not admit that they have any intention of reinforcing further General Merritt's forces at Cavite, there is reason to believe that some of the troops now in eastern camps who desire to see active service will soon find the opportunity unless the government shall change its present plans with respect to the Philippines.

It is believed to be necessary, even if our claim is limited to the terms stated in the conditions submitted to Spain, namely, the military occupations and government of the territory on the shores of Manila, to furnish to General Merritt a larger force than he has now at his command.

It is realized that 20,000 soldiers can scarcely be expected to maintain United States possession and protect the inhabitants over a territory of this extent, for it must be remembered that the bay of Manila is twenty-five miles deep from the entrance at Corregidor Island to the city of Manila at its head. It will also be necessary to possess and protect a zone extending some distance back of the city in order to make sure of the preservation of the waterworks.

Of course a considerable force would not be necessary if the insurgents under Aguinaldo could be brought to realize that their interests lie in permitting undisputed possession of this territory by the United States.

But it would be expecting too much of the native character to keep before the eyes of the insurgents the rich loot to be had in Manila without an adequate force to protect the place. Then with the growing heat and dampness it is to be expected that illness will develope among the troops; not to the extent that it appeared at Santiago, but sufficient to require some of the men to be invalided home and their places to be taken by fresh troops from the United States.

At present the large majority of General Merritt's force is composed of troops drawn from the Pacific coast or far western states. It is presumed that if he shall be reinforced, the eastern troops will be given an opportunity to make the long voyage to Manila, as this would be in accord with the policy that the war department has now adopted of taking geographical considerations into account in allotting the troops for active service at the front.

GETTING READY.

Indiana Republicans Gathering in Indianapolis.

State Convention Will Meet Wednesday and Last Two Days—A Lively Fight Against Marion County Machine.

INDIANAPOLIS, Aug. 2.—This city is the Mecca of the politicians of the republican party of Indiana. The state convention assembles tomorrow and already the city is thronged with delegates, sympathizers and boomers and a goodly contingent of outsiders. United States Senator Fairbanks will preside over the sessions of the convention, which will continue through Wednesday and Thursday.

The thirty candidates for the eleven nominations that are to be made by the republican state convention have opened an electioneering bureau in the Denison hotel and the supporters of each are coming from all over the state. It is charged that the local machine in this Marion county has been planning to manipulate the convention in favor of a slate by trading on the 135 delegates of the county.

The delegates from the country, who have always charged Marion county with taking more than its share of the offices, threaten to defeat every man supported by the local machine at the capital.

Many representatives of the party are objecting to the presence of Harvey M. Lafollette, of Chicago scrip fame, as the manager of the "spoil" being formed by the Indianapolis politicians.

The interest in the nominations still centers around the contest for auditor of state. William H. Hart, the deputy auditor, is being opposed on the ground that he has "impugned the honesty" of a good many men by questioning bills presented to the auditor for indorsement. James R. Henry, the principal opponent of Hart, is backed by the men who feel that they have been mistreated by the deputy auditor.

The party platform will indorse the state administration and make special mention of the saving by reason of the inspection of accounts, and the party leaders are alarmed lest the men who put into effect the reforms will be defeated.

The platform-makers have about completed their work. Several representatives of the party were protesting at headquarters today against the convention indorsing the currency reform bill now pending in congress, but the leaders say the few white-metal men in the party will not be heeded. The first session of the convention will be held Wednesday afternoon. The nominations will all be made Thursday.

WOULDN'T ACCEPT.

The Bicycle and Athletic Clubs Will Not Consolidate.

A Proposition Received From the Athletic Club Was Voted Against by the Bicycle Boys.

The Fort Wayne Cycle club last evening received a proposition from the Fort Wayne Athletic club that the two consolidate. The communication from the Athletic club contained a statement of the conditions on which a consolidation would be desirable. The bicycle boys were not favorable to the proposition and without much discussion voted almost unanimously to remain aloof from other organizations.

PAY FOR SOLDIERS.

Camp Thomas Boys to Get Their Money Tomorrow.

Paymasters Will Distribute More Than $1,500,000.

An Army for General Wade Soon to be Formed.

Colonel Culver Has Begun a Course of Severe Discipline for the Recalcitrants of the Fifth Illinois.

CHICKAMAUGA, National Military Park, Tenn., Aug. 2.—The two main subjects of interest at Camp Thomas at present are the expected arrival of the paymasters tomorrow and the expedition which it is reported is being arranged in Washington for Major General Wade. The paymasters are expected to get in at an early hour tomorrow morning and to begin their work before noon. The pay rolls of all the regiments are now complete and there will be little delay in making the payments. The total to be paid will be near $1,500,000.

Nothing has yet been heard from Washington in regard to General Wade's expedition and the officers and men of all the regiments here continue on the anxious seat.

The impression prevails that General Wade will take with him the regiments best fitted, no matter to which corps or division they may belong and every regiment is now attempting to impress its fitness and its right to be included in the expedition.

In one regiment a petition to the war department is being circulated and liberally signed.

Colonel Breckinridge, the new commander of Camp Thomas, is expected to arrive tonight and take charge tomorrow. He is well known to the majority of the officers as he was here some time on inspection business a few weeks ago.

Brigadier-General Franks, assuming command temporarily, did not necessitate his giving up his division for any time and he will be in command at both corps and division headquarters until General Breckinridge arrives to relieve him.

Now that the boys of the Fifth Illinois have had their fun, Colonel Culver will have his inning. He has announced that every non-commissioned officer who took part in the demonstration last week after the regiment was recalled will be reduced to ranks. This work is to be commenced at once and new men appointed in their places. Colonel Culver says his regiment has had a good reputation for years and he intends to sustain it. He added:

"I have ordered all of these non-commissioned officers reduced, that is, those who were absent without leave. I judge there was about a dozen of them. The other men who are guilty of being absent without leave will be fined by the field court."

The new camp of the Fifth has been thoroughly cleaned and now presents a pretty appearance. It will be remembered that there was a good deal of sickness while the men were quartered in their old camp, but the sick reports show a remarkable decrease since the new camp has been pitched. The officers of the regiment expect but little trouble hereafter on account of sickness.

FOR ANOTHER TERM.

Speaker Reed Renominated by the Republicans of the First Maine District.

PORTLAND, Maine, Aug. 2.—The republicans of the First congressional district held their convention here today. After preliminary business the name of Thomas B. Reed was presented to the convention and he was nominated by acclamation amid mobb enthusiasm. Later Mr. Reed appeared on the floor of the hall.

He was greeted with deafening applause, which prevailed until Mr. Reed began to speak. Then some one shouted, "Take the platform."

"No," said Mr. Reed, "let me have my way once," and the convention broke into laughter.

Mr. Reed then spoke briefly, returning thanks for the renomination.

GIVES BIG ROYALTIES.

Canadian Government Has Taken $2,500,000 From Yukon Mines in One Year.

SAN FRANCISCO, Aug. 2. — A special to the Examiner from Dawson City, of July 27, says:

Within the last twelve months the Canadian government has taken from the Yukon mines more than $2,500,000. The cost of maintaining the mounted police in Dawson and the salaries of the district officials, have been reported to the Canadian parliament to be in the neighborhood of $400,000, leaving a net annual gain to the government of over $2,000,000.

The largest individual amount that goes to make up this total is the royalty, which has been conservatively estimated to be $500,000.

Miss Nellie Gill, of Port Clinton, Ohio, arrived in the city today and left at 1:30 p. m. for Winona Lake, Ind., where she will be a guest for two weeks at the Culbertson cottage.

Miss Mamie Dickinson gave a 6 o'clock dinner last evening.

THE SENTINEL has made arrangements with a boy at Rome City to deliver the paper each evening.

TO FIX THE BLAME.

War Department Probing the Scandals of the Transports.

THE GUILTY OFFICIALS TO BE UNCOVERED.

WASHINGTON, Aug. 2.—An effort will be made by the war department to ascertain the official at Shafter's headquarters who is responsible for dispatching to the United States loaded with soldiers the transports which are alleged to be unfit for the work to which they are put. With this end in view Surgeon General Sternburg has sent the following dispatch to Major Havard, the surgeon with Shafter's army:

"The management of the medical department at Santiago is severely criticized. Sick and convalescents sent on quartermasters' transports are said to be over-crowded, not properly supplied with medicines or medical attendance or with suitable light diet. Who is responsible? Report in full and take measures to prevent similar occurrences in future."

At the same time a rigid investigation is to be made of the charges by the Red Cross officials and others concerning the unfitness of the transport Concho, which reached New York several days ago. Secretary Alger has taken much interest in this matter following so soon the case of the Seneca, which about ten days since brought to New York a large number of sick and wounded, which vessel also was said to be unsuitable. The investigation will be made by Col. C. H. Heit, of the inspector-general's office.

General Sternburg feels that injustice is done the officers of his department in the criticisms made of the use of the transports in bringing the sick and wounded north and in the preparations for the journey. As a matter of fact, he said today, he did not know that the Concho was to be used for a temporary hospital ship, the first intimation of that character being received when a telegram reached him announcing the arrival of the vessel at Norfolk. The loading of the ship with supplies, including ice, other than medical character, does not come under the supervision of his bureau and his officers, he says, should not be charged with any dereliction of that character.

PERU AND PEKIN REACH HONOLULU.

HONOLULU, July 26—via San Francisco, Aug. 2.—The transports Peru and City of Peking arrived on the 23d. Three men with typhoid fever were removed from the ships to the hospital. Lieutenant Hunt, of the Fourteenth infantry, is one of the sick. Charles H. Watson, bandmaster of the Thirteenth Minnesota regiment, died in this city on the 21st, of typhoid fever, contracted on the voyage from San Francisco.

A BODY OF SPANISH REPORTED WIPED OUT.

MADRID, Aug. 2.—2 p. m.—An official dispatch from Havana says 400 insurgents recently attacked a Spanish detachment, numbering twenty men and commanded by a sergeant, near Huanes, in the western part of the Province of Pinar del Rio. After a fearful fight, the dispatch adds, the insurgents fled, having killed ten of the Spaniards and wounded a number of others. The survivors, it appears, are to be decorated and recompensed.

SHAFTER RELEASING POLITICAL PRISONERS.

WASHINGTON, Aug. 2.—The war department has posted the following telegram from General Shafter, dated Santiago de Cuba, August 1:

"All political prisoners have been immediately released as soon as we reached them. Have not heard from Guantanamo, but General went there three days ago to receive the surrender of arms and political prisoners. They were undoubtedly released on his arrival."

HEALTH REPORT FROM SHAFTER.

WASHINGTON, Aug. 2.—The detailed condition of affairs at Santiago, together with a list of the deaths on each day, is shown in the following telegrams from General Shafter:

"Sanitary condition for July 29: Total sick, 4,161; total cases of fever, 3,212; new cases of fever, 609; cases of fever returned to duty, 792; deaths, 10.

"Sanitary condition for July 30: Total sick, 3,892; total cases fever, 2,692; new cases fever, 548; cases of fever returned to duty, 815; deaths, 5."

In another dispatch dated today, General Shafter says he has in the hospitals wounded and sick prisoners to the number of 2,281.

VIOLATORS OF LAW.

An Effort Being Made to Enforce the Sunday Laws.

The Committee of One Hundred Will Prosecute Persons Who Desecrate the Sabbath.

The Committee of One Hundred, made up of law-abiding citizens of Fort Wayne, have determined, if possible, to enforce the Sunday laws. Yesterday affidavits were sworn to by Revs. J. S. Ainslie and W. D. Parr, charging Russell George, Frederick Schmeuckle, William Hollenbeck and Frank Belchin with maintaining screens in front of their bars on Sunday. These gentlemen were part of a committee appointed to investigate the alleged Sunday violations. Four sub-committees were appointed. Those from the east and north side reported that they found all places quiet and no violations. The south side committee did not report. Revs. Ainslie and Parr were members of the committee which visited the downtown places. They assert that James Summers' saloon was the only place visited where the bar was visible. At other places men seen going in and out and at still others voices could be heard within. Some of the persons who visited the saloons even went so far as to invite the reverend gentlemen to go in with them.

The result of these visits about the city were the filing of the above affidavits, and more are to follow. THE SENTINEL was informed on reliable authority that the cases would be contested and that jury trials will be demanded. Should convictions be returned the cases will be appealed to the state supreme court.

The laws of the city should be enforced, and especially those which are made to protect young men against pitfalls offered by the liquor traffic. If the authorities are unwilling to enforce these laws, then there certainly are enough citizens favorable to law and order who will at least make an effort to supress the Sunday evils.

The affidavits against Schmeuckle and George are filed in Justice France's court, the one against William Hollenbeck in Justice Bullerman's court, and against Belchin in Justice Huser's court. The cases against Schmeuckle and George have been set for tomorrow afternoon and the one against Hollenbeck is being heard this afternoon. Belchin appeared before Justice Huser and was granted a continuance until Thursday afternoon. He is a member of the Local Liquor league, and it is understood will fight the case and demand a jury trial.

NOTES.

The superior court adjourned today until August 15.

The circuit court will not convene again until September 1.

Judge Roby overruled motions for new trials in the cases of the Farmers' bank vs. Medsker and Buck against the Fraternal Insurance company.

The motion for a new trial in the case of Sheehey vs. the City of Fort Wayne was argued yesterday before Judge Roby who took the matter under advisement.

Emmett Hatch was fined $1 and costs by Justice France this morning for assault and battery on Delvin Cono. The parties reside in Huntertown.

Louisa Wessel has sworn to an affidavit charging Louisa Baumgard with provoke. 'Squire France will try the case.

Justice Huser fined Charles E. Hoffman $1 and costs for provoking Jacob Meyer. The case will be appealed to the circuit court.

RILMA IS HERE.

W. O. Foote Arrives at the Track With His String of Four.

W. O. Foote, of Houston, Texas, arrived at the Driving park this morning with his string of horses, four in number. The leader of the stable is Rilma, with a record of 2:10, and she will start in the 2:10 trot on Wednesday. The other horses in Mr. Foote's stable are John Nolen, 2:12, who will start in the 2:28 trot on Monday; Parroll, jr., 2:18½, and Rena, a green trotter with no mark. Mr. Foote says the 2:10 trot will be the event of the season in the grand circuit.

HEALTH in Indiana was unusually good for the quarter ending June 30. The report of the state board of health will show 1,000 fewer deaths than the previous quarter. This is remarkable, inasmuch as April May and June are usually months fraught with mortality.

THROUGH the influence of Perry S. Heath, assistant postmaster general, several Indiana men will be authorized to establish the first national bank opened in Honolulu since the annexation of Hawaii. Fred Heath, of Muncie, a brother of the assistant postmaster general, will be at the head of the institution. The bank will be known as the First National Bank of Honolulu.

SLATES sometimes go through quickly. It depends upon circumstances. The North Dakota republican state convention at Fargo placidly nominated its fourteen candidates on the state and congressional ticket in twenty-three minutes. Every one was by acclamation and there was objection to none. Harmony was never wholesaled with such a prodigal hand, says an observant correspondent.

WESTERN papers are printing an interesting story of the alleged discovery in Iowa of the missing heir to some $3,000,000 worth of property, left by his bachelor uncle when he died in Oregon, but an elaborate statement of the value and attractiveness of two summer resorts which is incorporated in the narrative may give rise to the suspicion that it is an ingenious attempt to advertise places where guests in these war times are not too numerous.

CHARLES E. WILSON, formerly managing editor of the Lafayette Daily Courier and now private secretary to Governor Mount, has been mentioned prominently for superintendent of the Bureau of American Republics, which office is to be filled October 1 Mr Wilson is one of the best and brightest newspaper men in Indiana, and nothing would please better his editorial brethren throughout the state than to see him get this appointment or any other that his tastes or ambitions may fancy Charley Wilson can fill any position in which he is placed and fill it well

THE Gazette says that the property owners are becoming much concerned over the condition and quality of the new asphalt pavement that is being laid on several streets in the south part of the city. We have great faith in the integrity and vigilance of the members of the board of public works and feel sure they will never accept from the contractors any pavement that is not what it should be and fully up to all requirements of contract. If, after the streets are completed, it is demonstrated that the pavement is not what the contract requires, the property holders should of course refuse to pay for the work until it is made what it should be.

THESE words from some anonymous source of wisdom are worth the heed of every man who owns a horse: "The inhumanity of keeping horses in tightly locked barns these hot, sweltering nights is a subject that demands the attention of our humane citizens. Owners of horses should remember that their faithful and intelligent animals suffer as much by having their barns tightly closed as would a person these warm nights by sleeping in a house with every window closed. The dumb beasts express their suffering throughout the nights by continued stamping. Better permit all the circulation of air possible through the horse stable and make the comfort of the horse paramount at this season of the year."

A NUMBER of ministers of Fort Wayne have inaugurated a crusade to bring about enforcement of the Sunday saloon laws. To convince themselves that the law was not enforced they visited a number of saloons and found that very little attention was being paid to the law. It is too bad that the ministers have to engage in such work as this as officers are elected and sworn to see that the laws are obeyed. As long as the voters care more for party than they do for the welfare and repute of the city just so long will there be bad officers and poor enforcement of the laws. Last spring the democratic and republican parties dodged this question because they were afraid to meet it honestly and courageously. It was known that the law was not being enforced and that it would not be. Each party was afraid it would fail to get the votes of the pro-saloon classes if any stand were taken in favor of compelling obedience to the laws. The law-abiding elements were given no choice.

Bismarck's Firm Faith.

The two greatest statesmen of the century, Bismarck and Gladstone, who have died within a few weeks, being contemporary, were often contrasted. Bismarck was an imperialist of the most absolute sort. Gladstone was a commoner of great intensity both in his belief and practice of democracy. In one respect Bismarck and Gladstone were one. Each had a deep and abiding faith in the Christian religion. Gladstone's faith absorbed his whole being in his last days as it had guided his conduct throughout his life, in his public career and in his private concerns. In his declining years Bismarck's faith in his God became firm and sustaining. When the fierce activities of war and the swirl of European politics were at an end for him there came the consolation of the faith in which he was bred. He faced death with calmness and fortitude, willing for the summons and prepared to go But his faith was always a part of him. During the Franco-Prussian war he wrote

"If I were not Christian I would not continue to serve the king another hour. Why should I incessantly worry myself and labor in this world, exposing myself to embarrassments, annoyances and evil treatment, if I did not feel bound to do my duty on behalf of God? Did I not believe in a divine ordinance which has destined this German nation to become good and great, I had never taken to the diplomatic trade, or, having done so, I would long since have given it up. I know not whence I derive my sense of duty if not from God. Orders and titles have no charm for me. I firmly believe in a life after death Deprive me of His faith and you rob me of my fatherland. Were I not a staunch Christian, did I not stand upon the miraculous basis of religion, you would never have possessed a federal chanceller in my person "

The testimony of intellectual Titans like Gladstone and Bismarck and others of the world's greatest, humbly acknowledging their allegiance to the Christian religion, puts to rout the whole legion of pigmy scoffers

AT ISLAND PARK.

Epworth League Day Celebrated Saturday.

Rev. Dr. Parr, of Fort Wayne Conducted the Services of the Day—An Auspicious Occasion.

Last Saturday was Epworth League day at Island Park assembly and the occasion was fittingly and auspiciously observed. Owing to rains in the morning the attendance was not what it otherwise would have been, but it was large, nevertheless, a good-sized crowd being present. The following details are furnished by the Kendallville Daily Sun:

Rev. W. D. Parr, of Fort Wayne, conducted the services of the day. Dr. Parr is one of the ablest preachers in the North Indiana M. E. conference. At the afternoon meeting the Harmony quartette sweetly sang, and a male quartet consisting of Revs. Cissell, Johnson, Powell and Sprague, of Fort Wayne, rendered a selection. Dr. Joseph F. Berry, of Chicago, editor of the Epworth Herald, lectured on "A Trip to Ireland." The address was a very entertaining one. His lecture was both humorous and instructive.

In the evening, after selections by the band, a miscellaneous program was rendered. There was a selection by the Harmony quartet. Miss Cleo Carter, soprano of the quartet, very charmingly sang a solo, with violin and piano accompaniment, Prof. F. A. Thomas, of Kendallville, leader of the K. P. band and orchestra at the park, accompanying her on the violin, and Miss Duck on the piano. Miss Carter is the possessor of a voice of much sweetness and power. The audience requested an encore, but she did not respond. Miss Jessica Lycan gave a beautiful pantomime rendition of "Suwanee River" while that song was being sung. Dr. Berry and Dr. Curts, of Chicago, the latter one of the publishers of the Epworth Herald, each gave a short talk on Epworth league work and short talks were given by Rev. L. J. Naftzger, Dr. Trever and others.

Lem R. Hartman yesterday let to J. O. Brown the contract for a fine new residence to be erected on Jackson street, between Wayne and Washington. Mr. Hartman will make his future home therein.

A LUCKY SCORE.

But the Old Soldiers Were on the Long End of It.

The Hoosiers Beaten 16 to 1--Norcom Was Batted Hard--Fort Waynes Could Not Bat Streit.

The Old Soldiers had some fun with Norcom's curves yesterday at Dayton He delivered the ball to the plate in tempting fashion and Mr. Armour's pets lined out home runs, etc. Streit was in the points for the Old Soldiers, and try as they would the Hoosiers could only solve his delivery for four hits and one run was all they could send over the rubber. The teams play today and tomorrow with Reiman and Brodie as the twirlers. Score:

NOTES.

Norcom had an "off" day yesterday and it was "off" with a vengeance.

Piatt and Flick are the two biggest finds of the season. Piatt has shut out his opponents in the last two games pitched.

The Daytons and Fort Waynes were arrested and fined by a country 'squire after Sunday's games. The 'squire held court on a box.

Dayton News: "Third Baseman Babb, of the Fort Waynes, is a comical 'duck.' He fields his position well and occasionally gets a good hit. Pittsburg is after him, having made an offer."

Big Dan McGann, Baltimore's first baseman, has not had an error in the last twenty-three games. He has accepted in these games 223 chances, with never a misplay. That is a record that will probably not be beaten this year.

Public Ledger: "Criger, the young Clevelander, comes pretty near being the best catcher in the league. He has not the experience as a backstop nor is he quite as quick in throwing as McFarland, but he is a better hitter than the Philadelphian "

Dayton News "It was simply impossible for the Soldiers to hit Brodie effectually. His snaky balls came like softly flying feathers, but a breath of air usually steered them away when the Vets prepared to hit. Never before did the Soldiers strike more wickedly or more foolishly. His curves came as softly as the June breezes, but the way they jumped bridges was peculiar and somewhat remarkable. Brodie will be seeking admission to the major league soon. His success lies in his slow balls. When hit only short drives are made."

RAILROAD TO BE BUILT.

Chinese Promoter Has Enlisted the Aid of British Capital.

SHANGHIA, Aug. 2.—According to a dispatch from Pekin under date of July 31, Young Wing (not Yung Ping as previously given), a Chinese graduate of Yale, has obtained an extension of time for his concession for the Tien Tsing-Chin Kiang railroad, alleging that he has received the support of an English syndicate to supply the necessary capital—5,000,000 pund $25,000,000). But, it is said, Hou Yu Fen, one of the directors general of the Chinese railroads, in face of Russian opposition to the loan, has broken off negotiations with the Hong Kong bank, which proposed to supply the capital for building an extension of the Tien Tsin Shan Haikwau railroad to Nu Chwang. The latter is distinct from Young Wing's concession.

THEY ARE POPULAR.

Public Baths the Thing in the Quaker City.

Philadelphia Now Has Ten in Use—Councilman Hench Gets a Letter From a Promoter of Public Baths.

Councilman G. R. Hench, who has proposed to the city council that Fort Wayne be supplied with a public bath and natatorium, has begun the collection of data showing that such institutions are not only greatly desirable, but entirely practicable. A letter from Select Councilman J. Emory Byram, of Philadelphia, gives some details of the public bath of which he was the promoter in Frankford, one of the wealthy resident districts of Philadelphia. This letter says:

"MY DEAR SIR: The building of a free bath house for the use of the public is one of the most popular measures that can be opposed in Philadelphia, and if you build one in Fort Wayne you will wonder why you did not build it years ago. The one I was instrumental in having built in Frankford, Philadelphia, cost $14,000. There are now ten in use in this city from June 15 to October 15; Mondays and Wednesdays for women and the rest of the week for men and boys. There are not one-half enough of these public bath houses built to accommodate the demand. In the one at Frankford, where I live, 3,500 persons have been known to avail themselves of its privileges in one day. This is the first one in Philadelphia to have the hot water attachment. There are six needle (shower) baths for hot water. If it is possible I will send you a set of plans and specifications. The one in Frankford is built on a lot 100x130. The cement pool is 60x35. If I had it to go over it would be 100x40. The depth is gradual from four feet to seven feet. The water flowing in and out constantly keeps it clean and fresh. Twice in the week the pool is emptied and washed with large fire hose to thoroughly cleanse it. The entire inside is cement. A broad walk extends around the pool and the small closets in which to dress and undress are arranged around the two sides and rear end. The front has apartments for offices and toilet rooms for each sex. The keeper gets $600 per annum and his wife must be on duty the two ladies' days free of cost to the city. Very truly,

"J. EMORY BYRAM."

SWEPT THE STATE.

Democrats Carry Alabama by 60,000 Majority.

Little Interest Taken and a Light Vote Polled—Populists Lose In All Their Strongholds.

BIRMINGHAM, Ala., Aug., 2.—Sixty out of sixty-six counties in the state have been heard from as to yesterday's election, though the returns from none are as yet complete, owing to the slow method of counting and returning.

Reports from the partial returns received indicate a democratic majority of between 50,000 and 60,000.

Jefferson county gives a democratic majority of about 4,000. In the city of Birmingham 2,000 votes out of a registration of 3,500 were polled. Of these the democrats received 1,800. The independent county and legislative candidates in this county were badly beaten.

Reports from over the state show that the populists have lost heavily in all their strongholds.

MYSTERIOUS ASSAULT.

Three Members of a Baltimore Family Receive Fatal Injuries.

BALTIMORE, Md., Aug. 2.—A mysterious assault which may result in a triple murder was made upon a family residing in the lower part of the city early this morning. The victims are:

Mrs. Hannah Lillis, widow, aged thirty-three; Winnie Lillis, aged seven, and Mrs. Bessie Whetler, aged twenty-nine.

Mrs. Whetler, who is separated from her husband, boarded with Mrs. Lillis, who with her three children lived at 211 South Lemmrds alley, near the wharves.

Shortly after daybreak the police heard cries of "Murder," and hastening to the house, found the women and the little girl bleeding and unconscious from wounds about the head, evidently inflicted with the blunt end of an axe. The only persons who were able to furnish any information regarding the affair were two Bohemians who claim to have seen a negro leave the house and who set up the outcry which alarmed the police. All the victims are in the hospital and the physicians think they have little chance of recovery. No motive can be assigned for the crime.

Challenge for the America's Cup.

LONDON, Aug. 2.—The honorary secretary of the Royal Ulster Yatch club, Mr. Kelly, has telegraphed to the London office of the Associated Press saying that the challenger for the America's cup is Sir Thomas Tipton. Sir Thomas Lipton is a new comer in yachting circles. His yacht is to be named the Shamrock.

Grand Circuit Races Postponed.

COLUMBUS, Ohio, Aug. 2.—The first day's racing of the Grand circuit meeting here was postponed on account of heavy rains. There will still be five days' events, extending over Saturday.

NEW LAWS NEEDED.

Extra Session of Congress May Soon be Called.

It Depends Much on the Treaty With Spain—Statutes Touching the Army Will Need Revision.

WASHINGTON, Aug. 2.—President McKinley will call an extra session of both houses of congress as soon as Spain accepts the terms of peace offered by the United States.

It has always been understood that the senate would be convened as soon as the treaty of peace was ready to be acted upon by that body. The attention of the president has been called, however, to a situation which makes the assembling of the entire congress necessary. This situation can be explained in a few words.

Under the law which provides for the raising of the volunteer army, that army goes out of existence as soon as the war ceases

When this law was framed it was not for a moment supposed that after the war had ended there would be any necessity of keeping the army intact. The developments of the war made it very evident that instead of sending the army back to civil life, fully 100,000 men will continue to be needed.

It is the present intention to distribute no fewer than 50,000 soldiers throughout Cuba, with 30,000 in the Philippines and probably 20,000 in Porto Rico. Under the law, as soon as hostilities cease the volunteer army is disbanded and the regular army goes back to its peace footing, thus leaving only 27,000 men in the service. This is a total far too small for the work that will be required.

Consequently the aid of congress will be needed to frame new laws which will keep an adequate army for garrison purposes.

In addition to this, laws must be passed to meet the new requirements of government in the Philippines and Porto Rico.

The president is naturally averse to calling congress together during the hot weather, and it may be decided that the war is not ended until the senate has ratified the treaty of peace.

In this case congress will not meet until the first or middle of September, as it will take at least a month or six weeks for the full details of the treaty to be discussed and framed. The present outlook is, however, for an extra session at a much earlier period in the hope that its work can be concluded before the fall campaign has reached its height.

WANT MORE SPEED.

New Battleships May be Made Faster.

Displacement to be Increased Two Thousand Tons More and Speed to be Eighteen Knots.

NEW YORK, Aug. 2.—A special to the Times from Washington says:

The question of the speed of the three battleships provided for by the new naval program has been reopened again.

The proposition now under consideration is to give the proposed ships a displacement of 13,000 tons, instead of 11,500, and to fix their minimum speed at 18 knots, instead of 16. Chief Engineer Melville has been asked to submit designs of the new improved machinery, including water-tube boilers, which he proposes to install, with a view to developing an 18 knot speed. These designs ready, Chief Constructor Hichborne will set his bureau of construction and repair to work on designs for a hull to accommodate that machinery, with the requisite coal space and the desired batteries.

The new scheme contemplates a main battery of 12-inch and 8 inch guns, instead of 13-inch and 6-inch, as in the present designs, this change being prompted only by the lessons learned from the Santiago engagement.

A further, and a most important change, proposed to be made in the new ships, is the addition of copper sheathing. At a meeting of the board of construction it was unanimously voted to have the new battleship sheathed with a view to preventing the fouling of their bottoms and the loss of speed resulting therefrom. This is a reversal of the board's position on the sheathing question. It has stood heretofore three to one against sheathing the bottoms of the battleships, Commodore Hichborne being the only advocate of the reform.

The experience of the fleet in southern waters during the present war, when the battleships and cruisers have steadily lost what speed they started with, the result of marine growth on their hulls, has convinced the board that, costly as the sheathing is, it will be economical in the long run, since it will enable the ships to retain their speed for an indefinite time.

Communication With Ponce Re-opened.

NEW YORK, Aug 2.—The Western Union Telegraph company's central cable office is advised by the West Indian and Panama Telegraph company that communication with Ponce was re-opened yesterday, under censorship at Ponce by the United States government. Messages for the interior by that route will not be accepted. The San Juan cable is still open under censorship by the Spanish government.

Jumped From a Tenth Story Window.

NEW YORK, Aug. 2.—George Tod, a wealthy resident of this city, committed suicide today by jumping from a tenth story window in the Hotel Majestic. Mr. Tod has been a sufferer from melancholia for some time past. He was a brother of J. Kennedy Tod, of this city.

Earl of Mansfield Dead.

HE WAS IN DISTRESS.

Linares Tells of the Suffering of His Troops.

There Was No Hope for His Half fed and Miserable Soldiers—Surrender Was Inevitable.

(Correspondence of the Associated Press.)

GUANTANAMO, Province of Santiago de Cuba, July 25.—An official report of General Linares to the Madrid government, transmitted on July 13, is full of pathos, as it tells of Spaniards thousands of miles from home striving to defend property which the owners have deserted. The report sent by cable on July 13, was addressed to the minister of war.

It was translated for the Associated Press by Commodore Schley. The text in full is as follows:

"Official cablegram, July 12, 1898. To the Minister of War, from the General in Chief of the Division of Santiago de Cuba: "Although confined to my bed by great weakness, and in much pain, the situation of the long suffering troops here occupies my mind to such an extent that I deem it my duty to address your excellency, that the state of affairs may be explained.

"Enemy's lines very near the town on account of the nature of the ground; our lines are in full view from them. Troops weak; sick in considerable proportions not sent to hospitals owing to the necessity for keeping them in the intrenchments Horses and mules without the usual allowance of forage. In the midst of the wet season, with twenty hours daily fall of rain in the trenches, which are simply ditches dug in the ground, without any permanent shelter for the men. The men have nothing but rice to eat and no means of changing or drying their clothing.

"There have been considerable losses. Field officers and company officers are killed, wounded or sick, and deprive the troops of necessary orders in critical moments.

"Under these circumstances it is impossible to fight our way out, because in attempting to do so our force would be lacking one-third of the men, who could not leave, and we would be weakened besides by casualties caused by the enemy, resulting finally in a veritable disaster without saving our diminished battalions.

"In order to get out, protected by the Holquin division, it will be necessary for them to come and break the enemy's lines in one place, so that my forces may break through in another, both acting in conjunction. For this operation the Holquin division will require eight days, and will have to bring a large amount of rations, which it is impossible to transport. The solution of the question ominously imposed upon us.

"Our surrender is inevitable, and we can only succeed in prolonging the agony. The sacrifice is useless, and the enemy understands this. They see our lines and theirs being well established close up. They tire out our men without exposing themselves. Yesterday they cannonaded us on land with such an elevation that we were unable to see their batteries, and from the sea by the squadron, which had perfect range and bombarded the town in sections with mathematical precision.

"The complete exodus of the inhabitants, insular as well as peninsular, includes the occupants of the public offices, with few exceptions. There only remain the clergy, and they yesterday started to leave the town with the archbishop at their head.

"The defenders here cannot now begin a campaign full of enthusiasm and energy. They came here three years ago, struggling against the climate, privations and fatigue, and now they are placed in these sad circumstances where they have no food, no physical force, and no means of recuperating. They are defending the property of those that have abandoned it and those that now are being fed by the American forces.

"The honor of arms has its limits, and I appeal to the opinion of the whole nation as to whether these long suffering troops have not kept it safely many times since May 18, when they were subjected to the first cannonade. If it is necessary that the sacrifice be endured for reasons of which I am ignorant, or that some one shall assume the responsibility of the unfortunate termination which I have anticipated and mentioned in a number of telegrams, I faithfully offer myself on the altar of my country for the one, and for the other I will retain the command for the purpose of signing the surrender, for my modest reputation is of little value as compared with the country's interests."

GREAT FUEL FIELDS.

Copper River Miners Abandon Gold Mines to Locate Coal Claims.

PORT TOWNSEND, Wash., Aug. 2.—Letters received here state that many prospectors between Copper river and Cooke's Inlet, Alaska, have abandoned their search for gold and are locating coal claims.

The country is said to be one mass of coal, which is claimed to be an excellent quality of lignite. Near Graham's bay, W. A. Moore found a deserted coal mine with appliances showing the mine evidently had been worked by Russians before Alaska was ceded to the United States.

BIG CROWDS.

Robison Park Theatre an Attractive Place.

Notwithstanding the fact that there were no excursions to Robison park yesterday, the attendance at the theatre was good, nearly every seat being occupied when the curtain went up, both afternoon and evening. The performance is good—one which pleases the masses better than anything yet seen there—and it will continue to draw big audiences during the week. Barry and Hague appear to be the favorites with many of the patrons of the show, though none of the performers fail to draw forth liberal plaudits. An evidence of the entertaining character of the show is the fact that many who attended it Sunday were again there yesterday and last night and showed by their action that they enjoyed it very much.

TO FREE CUBA

And Not to Grab Land the Purpose of This War.

That Is the View of Senator J. K. Jones and He is Opposed to Seizing the Philippines.

ST. LOUIS, Mo., Aug. 2.—Senator James J. Jones, of Arkansas, chairman of the national democratic committee, who was in the city conferring with prominent members of his party, had this to say concerning our foreign policy before he left for New York:

"The United States is pledged to the world that an independent and stable government shall be established in Cuba. When I voted for that resolution nothing was said about imperialism. This country cannot afford to go back on its pledge. These are my private views, which I believe are those of the democratic party.

"I do not know what conditions may arise respecting Cuba, but I have never known a Spanish-American community capable of self-government and it is possible that, since we set out to free Cuba from Spanish domination, we may be compelled to pursue a course which will eventuate in the control of the island.

"While I am not in favor of the acquisition of territory in the tropics, this course would be less objectionable than any other.

"Cuba is adjacent to the United States, as is Porto Rico, but the thought of annexing the Philippines is preposterous, undemocratic, and not in accordance with the principles handed down from the days of Thomas Jefferson

"We begun this war to secure the independence of Cuba and nothing more. When we have accomplished that end and Spain has indemnified us for the enormous war expense, our mission will be done."

A RAISIN POOL.

California Growers Preparing to Form a Combine.

FRESNO, Cala., Aug. 2.—President Kearny, of the California Raisin Growers' association, announces the plan to pool the raisin products in the state. He stated that 75 per cent of the crop in Fresno, Tulare and Maderia and Kings countries has been signed, and that over 50 per cent. of the crop of Kern county has been thrown into the pool. Agents are now at work in Southern and Northern California and with the contracts they secure the association will control 90 per cent. of the output.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at Drier & Bro.'s drug store. Regular size 50c and $1.00. Every bottle guaranteed.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogerty, Lexington, Ky." Sold by Dreier & Bro., druggists.

CONSULTING A WOMAN.

Mrs. Pinkham's Advice Inspires Confidence and Hope.

Examination by a male physician is a hard trial to a delicately organized woman.

She puts it off as long as she dare, and is only driven to it by fear of cancer, polypus, or some dreadful ill.

Most frequently such a woman leaves a physician's office where she has undergone a critical examination with an impression, more or less, of discouragement.

This condition of the mind destroys the effect of advice; and she grows worse rather than better. In consulting Mrs. Pinkham no hesitation need be felt, the story is told to a woman and is wholly confidential. Mrs. Pinkham's address is Lynn, Mass., she offers sick women her advice without charge.

Her intimate knowledge of women's troubles makes her letter of advice a wellspring of hope, and her wide experience and skill point the way to health.

"I suffered with ovarian trouble for seven years, and no doctor knew what was the matter with me. I had spells which would last for two days or more. I thought I would try Lydia E Pinkham's Vegetable Compound. I have taken seven bottles of it, and am entirely cured"—MRS JOHN FOREMAN, 26 N Woodberry Ave., Baltimore, Md.

FORGED SIGNATURES

Scalpers Use the Name of Commissioner Donald.

Hundreds of Tickets Are "Doctored" in Violation of Law—Local and Personal Gossip.

The Central Passenger association yesterday discovered that some ticket brokers were handling a number of tickets on which the signature stamp of Commissioner Donald the official stamp of the association and the perforating stamp used to validate the return portions of tickets had all been forged, says the Chicago Record. The tickets are the return portions of tickets from Chicago to eastern points, issued on account of the recent meeting here of the Young People's Christian union of the Universalist church. The return limit on these tickets expired July 21, but tickets deposited at the offices of the association were extended until August 10. The railroad men claim that the brokers bought a lot of tickets which have now expired, and in order to get rid of them the necessary stamps on the back had to be supplied to make them pass as extended tickets. In all some 3,000 tickets were sold for the meeting, of which about half were deposited for extension. To prevent the use of these forged tickets the association has arranged to give all holders of deposited tickets an order upon the railroads for new tickets instead of using the return portions of the original tickets. The forged stamps were very skillfully executed, and only the closest examination could distinguish them from the originals.

SUMMER WORK.

Lines Followed by Associated Charities During Hot Weather.

Not so Many Cases of Absolute Want as in the Winter, But Some Families Need Sympathy and Encouragement.

A great many persons do not realize the amount of work done by organized charitable associations during the summer months, thinking that effort is necessary only during the winter when people are out of work and unable to secure necessities for themselves and their families. It is a mistaken idea, and one of the most difficult with which those engaged in charitable endeavor have to combat. While the wealthy or well-to-do may be enjoying vacations, the poor we have always with us. They may not be in the distress that cold weather brings them, but they need sympathy, encouragement and attention just as well as at any other season. True, there are not so many cases of absolute want, yet there are some and these must be cared for. Then again, the principle employed by those who have made charitable and benevolent work a study is that it is much better to make a family self-supporting and independent, if possible, than to dole out alms, little by little, until the recipient finally loses all desire to make something of himself and seeks to live by what he can secure from others. A well organized society, prepared to meet emergencies as they arise, ready for action throughout the entire year, can certainly work more acceptably and efficiently than if it disbanded three or four months during the year, and then required two or three months of the remaining time to get in proper working order.

The work sought to be done by the Associated Charities requires constant attention. While the demands for aid are not so great during the summer, many things require attention. The cultivation of garden tracts, under supervision of the association, is in itself no small affair. The labor yard also is kept open, that there may be no occasion for men to traverse the streets, demanding help from the people upon the plea that they can get no work by which to earn a meal or lodging. Friendly visitation must be done in summer and often better results can be reached because the dependent or partly dependent can be given counsel, advice and urged to lay aside, during the time they are earning wages, something to help them when the work grows slack or ceases altogether. In fact, various methods and plans can be employed to ameliorate the condition of those who must be looked after so that the distress which comes with the advent of winter may be greatly lessened.

This is the line of work engaged in by the Associated charities during the summer, and those who have given the matter consideration are convinced that good results have been obtained. To the greatest efficiency, requires the hearty co-operation of the people, and it is encouraging to know that as the objects of the organization are becoming better known, this co-operation and encouragement are being more heartily extended.

THE CAPTAIN'S KICK.

Capt. W. F. Ranke Has a Statement to Make.

Says the Twenty-eighth Battery Has Had a Square Deal and He Has No Complaint to Make.

Recently THE SENTINEL's special correspondent at Camp Thomas wrote to this paper that the boys of the Twenty-eighth battery were feeling disappointed and sore because they had not been ordered for service in Porto Rico, and that there was a belief that it was a question of "pull" as to what organizations were given opportunity to go to the front. He also stated that the Twenty-eighth's trained artillery horses had been taken to equip other batteries. Now Captain Ranke writes to say that everything is all right and satisfactory and that he wishes it understood that the battery was not held at Camp Thomas for inefficiency. That will be readily believed, for next to the Indianapolis battery the Fort Wayne battery ranks first in efficiency. Captain Ranke's letter follows:

HEADQUARTERS TWENTY-EIGHTH LIGHT BAT., IND. VOL.,
CAMP GEO. H. THOMAS,
CHICKAMAUGA PARK, GA.,
July 27, 1898.

To the Editor of THE SENTINEL

The local correspondent of your paper has seen fit to send you some camp news (?) which does the battery and its officers an injustice. That anyone could send such rot and put his name to it is beyond my conception. There are eleven batteries here. Out of these five, and the Fort Wayne battery amongst them, have been having long marches, mounted drills and special instructions, with the expectation that five batteries would be called on for the Porto Rico expedition. To our sorrow the order came for four batteries only, and I, being the junior officer, was compelled to remain. On account of sickness of horses the four batteries were short of them and I, having broken horses, was asked to turn over fifteen. This I cheerfully did, knowing that the batteries could not take new horses on a campaign. All the remaining batteries had to furnish one thing or the other to equip the outgoing batteries. Battery A, Georgia, lost two thirty-two inch breach-loading guns: another, an Ohio battery all their harness. As it was the four batteries were left only partially equipped.

The boys did go to Lytle after a car load of horses, but it was found out later that they had been shipped from Ohio for the Ohio artillery, and through a mistake at the office we were told they were ours

The Zollinger battery today is the only battery on the grounds that ever participated in forced marches or that had mounted drills.

I am so sorry that the article appeared, as so many of our friends have written us regarding the same. Those not in touch with the members of the battery might think we had been set back through inefficiency.

If the correspondent had a kick coming the Fifth regiment, Illinois, surely has one. They got orders for Porto Rico and broke camp at 2 a. m. and marched out of Camp Thomas at 6 a. m. for Rossville. It was raining in torrents the entire march, but not a murmur, all were glad to serve their country, but when they arrived, to their sorrow, they were told that the order was recalled. I never in all my life saw such a sore crowd.

I hope that the above will explain all about us being left (?) and sat on.

WM. F. RANKE,
Captain Commanding.

DEATHS AND FUNERALS.

John Shutt, of Spencerville, father of Dr. J. M. Shutt, of this city, died at his home Sunday morning. Mr. Shutt had been ill for several weeks and had been failing for some days. He arose on Sunday morning and went to breakfast with the family. Before he had finished the meal, he asked to be led back to the bed. After awhile he called his grandson to him and said that he was dying. A message was sent to Dr. J. M. Shutt and he hurried to the bedside of his father, to find that life had fled.

John Shutt was born in Starke county, Ohio, on January 29, 1817. He was married to Miss Elizabeth Rhoades on December 19, 1839. The wife still lives to mourn the death of a most devoted husband. Nine children were born to the union, and of these five still survive. They are Dr J. M. Shutt, of this city; Dr. A. J. Shutt, of Spencerville, Ind.; Dr. L. A. Shutt, of North Manchester; Mrs. Martin Waters, of Antwerp, Ohio, and Mrs. William Davis.

The deceased was a member of the Lutheran church and had been a communicant of that faith since 1867.

HASS.

The funeral of Mrs. Elnora Hass will take place at 2 o'clock Wednesday afternoon from the Wayne street M. E. church.

WILL BE BENEFICIAL.

An Institute for Sunday School Teachers to be Held in Fort Wayne.

The Allen County Sunday School association has made arrangements to hold a teachers' institute in this city, August 24th to 27th, and has secured Miss Annie S. Harlow, of Philadelphia, as principal instructor. Miss Harlow has spent many years as primary worker, and is at present superintendent of a primary department that enrolls over 200 pupils. It is hoped that all the Sunday school teachers in the city and county schools will take advantage of this four days' institute.

Kendallville Sun: "Rev. Gus Mertz, Edward Stetor and Ed Wehmeyer, of Fort Wayne, are visiting friends in the city and are the guests of Henry Wehmeyer and family."

If every woman who expects to become a mother would heed and read that great book, Dr. Pierce's Common Sense Medical Adviser, by Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., there would be stronger mothers and healthier, happier children in the world.

In this great volume several hundred of its thousand pages are devoted to teaching women how to take care of themselves during every trying and critical period of their lives and especially at the time of approaching motherhood.

The author of this remarkable work has had a lifetime of practical experience in treating the special diseases and weaknesses of women and is recognized as one of the foremost of living experts in this particular field of practice. His "Favorite Prescription" is the most wonderful medicine ever invented to restore natural organic strength and power to the delicate feminine structure which is most intimately concerned in motherhood.

Taken during the time of anticipation it deprives the ordeal of all its accustomed terrors and dangers, makes the coming of baby absolutely safe and comparatively painless; tends to make the mother strong and cheerful and helps to endow the child with a strong, healthy constitution.

Mrs. Mabel Jordan, of Sedro Wooley, Lewis Co., Washington, writes: "I took Dr. Pierce's Favorite Prescription and have a fine, healthy baby girl, two weeks old. I suffered less with her than with any of the others, this being the sixth child, and she has good health. I got up on the tenth day and dressed my self; something I could not do with the other babies. I have been gaining in strength every day and feel well, all due to God and to Dr. Pierce's Favorite Prescription."

For the "Medical Adviser" send 21 one-cent stamps, to cover cost of mailing *only*, or for cloth covered copy 31 stamps, to Dr. R. V. Pierce, Buffalo, N. Y.

MUNICIPAL AFFAIRS.

Contracts Approved for the Construction of Pavements.

The Board of Works Visits the South Side Streets and Make an Investigation—Notes.

The board of public works this morning met in special session and approved the contracts and bonds of the new asphalt streets to be built by the Alcatraz Construction company on Fairfield avenue, Cass and High streets.

Yesterday afternoon Messrs. Eggemann and McCracken, of the board of works, and City Civil Engineer Randall visited the south side streets and inspected the work being done there. The pavement on East Creighton avenue was found to be in very bad shape. Water had arisen underneath the foundation and caused the pavement to sink in many places and there were many defective spots. Mr. Guelich was present and showed the board where he believed the sub-soil would not hold the foundation and pavement. He will build a trench and carry the water into a manhole at the corner of Clinton street. The board will not accept the work until it is satisfactorily done. Suttenfield street was visited and the pavement was found to be vastly superior to that on Creighton avenue. Binder is being laid on Woodland avenue and on Hoagland avenue the concrete is not all laid.

BOARD OF WORKS.

At the meeting of the board of public works yesterday afternoon, a resolution was passed, providing for nearly a mile of lateral sewers in the northwestern part of Bloomingdale. The engineer's plans provide for sewers on Putnam street, from the alley west of St. Mary's avenue to the alley west of Franklin avenue; in the alley west of Franklin, from Spring to Archer; alley between Spring and Huffman, from the alley west of Franklin to the west line of Archer's addition; alley between Huffman and Putnam, from the alley west of Franklin to the west line of Archer's addition; alley between Putnam and Archer, from the alley west of Franklin to the west line of Archer's addition.

Plans were also submitted, providing for sidewalks on the west side of Fairfield avenue, from Morgan avenue to Nuttman avenue. Resolutions were immediate for both these improvements.

A petition was presented, asking that Poplar street be widened and extended from its present terminus at Oakley street to the first alley west. No action was taken.

The bonds of Henry Ehle for building a sidewalk by private contract, and Conrad Norn and Nicholas, sewer builders, were approved.

NOTES.

Comptroller Berghoff, while in Chicago, arranged for bicycle tags to be used for the year beginning September 1. The tag will be of aluminum the same as at present, but the design will be a star with a big letter "B" inscribed thereon. In this letter will be the date and the number of the wheel.

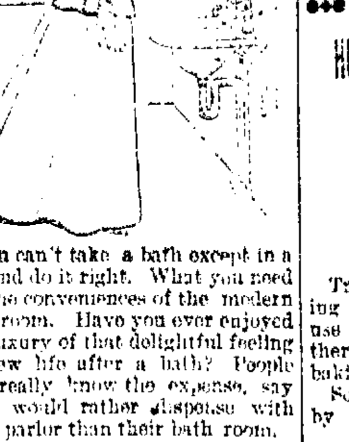

The council committee of the whole will meet tomorrow evening to consider the annexation of certain south side property.

Notice.

On account of going out of business, I will sell my groceries at and below cost. I also have for sale horse and delivery wagon and buggy; also house and lot on West Jefferson street.

THE PRICE OF PEACE.

Official Statement of the President's Demands Upon Spain.

NO WORD YET RECEIVED FROM MADRID.

WASHINGTON, Aug. 2.—The following is an official statement given out by authority of the president today as to the terms of peace offered by the United States:

"In order to remove any misapprehension in regard to the negotiations as to peace between the United States and Spain, it is deemed proper to say that the terms offered by the United States to Spain in the note handed to the French ambassador on Saturday last are in substance as follows:

"The president does not put forward any claim for pecuniary indemnity, but requires the relinquishment of all claim of sovereignty over or title to the Island of Cuba, as well as the immediate evacuation by Spain of the Island; the cession to the United States and the immediate evacuation of Porto Rico and other islands under Spanish sovereignty in the West Indies, and the like cession of an island in the Ladrones.

"The United States will occupy and hold the city, bay and harbor of Manila pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippines. If those terms are accepted by Spain in their entirety, it is stated that commissioners will be named by the United States to meet commissioners on the part of Spain for the purpose of concluding a treaty of peace on the basis above indicated."

SPAIN HAS NOT MADE HER REPLY.

WASHINGTON, Aug. 2.—Up to the time the cabinet met today no word had come from Spain either directly or through the French ambassador in response to the demand of the United States. Notice was taken of the statement from Madrid that a further explanation had been asked by the Spanish government, but this has not been directed so far to either the state department or the French ambassador. The allusion to "further explanations," however, is regarded as a rather hopeful sign as tending to show a disposition on the part of the Spanish government to close early with our terms, for it is said that the expectation was that the Spanish rejoinder would take the form of a counter proposal, the effect of which would be to lead to diplomatic sparring. It has been admitted at last by members of the administration that the terms of peace laid down by the United States had been practically stated with accuracy in the press dispatches, and realizing the futility of further concealment some official characters was to be given to the press statements by formal declaration from the white house.

Some such plan as that has been in contemplation for several days in deference to pressing requests, not only from the newspapers, but from a number of public men who felt that the people should be taken more thoroughly into the confidence of the administration.

It was represented on the other hand that the negotiations might be seriously jeopardized by the ill effect in Spain of a publication on the terms imposed. However, as had been already stated, the full and accurate newspaper publications descriptive of the peace conditions have made it unnecessary to maintain secrecy longer, and when the cabinet met it was with the understanding that a short synoptical statement touching the matter, though not including the text of the peace terms, should be made public.

It is understood to be the present intention of the administration to assume liability for all the unliquidated claims preferred by American citizens against Spain, on account of injury to personal property in Cuba. Some part of this liability may be imposed upon the government of Cuba later on, when that shall have been established, and to include such cases as can be directly charged up against the insurgents, where they have destroyed the property of American citizens in the course of their operations.

The assumption by the victorious nation of liability for private claims is not now in the arrangement of peace conditions, but on the contrary is rather in the line of the usual practice. At the conclusion of the Mexican war the United States assumed all such claims in behalf of American citizens, and established a special tribunal for their adjudication and payment. The same course was pursued in 1819 in effecting a settlement of the Florida troubles with Spain; though the decisions announced by the special tribunal were a source of litigation and negotiation clear down to the present time.

The amount of these claims against Spain in behalf of American citizens who suffered in Cuba was $15,000,000 at the date of the destruction of the Maine. It is estimated that this total has been increased to $20,000,000 since that time, and no doubt is entertained that there are many other claims of large amounts that have not yet been presented. Of course it is not possible at this stage to indicate what proportion of the claims are justly chargeable to the acts of the Cuban insurgents, and it is known that in many cases the claimants themselves were unable to tell the source of the damage to their property, whether by Spanish troops or the insurgents.

CLARENCE COOK

Seems to Have Struck it Rich in the Gold Fields.

E. W. Cook, His Brother, Received a Letter Written at Morris Creek, Alaska.

E. W. Cook this afternoon received a letter from Clarence Cook, written June 25 at Morris Creek. Rich discoveries in that vicinity caused a stampede of gold hunters to Morris Creek and Clarence "got in on the ground floor." He writes that he has a claim from which he expects a rich yield. He has written a letter to THE SENTINEL, which will be printed as soon as received, and no doubt will be read with interest by his numerous friends.

Clarence had not been heard from since May 5 and there was considerable anxiety as to his whereabouts and some fears were entertained that his health might have been affected. He is "chumming" with the correspondent of the Chicago Herald.

LOCAL LINES.

Mr. and Mrs. Charles Miller, of Peru, visited in Fort Wayne yesterday.

Miss Kittie Lucas, of Indianapolis, is visiting friends and relatives in the city.

Hon. J. C. Branyan, a prominent Huntington attorney, was registered at the Randall hotel today.

Mrs. Graham, of Findlay, Ohio, has returned home after a pleasant visit with Dr. and Mrs. J. E. Miller.

Miss Marguerite M. Kline, of Akron, Ohio, is the guest of Mr. and Mrs. Carl White, of East Suttenfield street.

Miss Irma Becker will return tomorrow from Ligonier, and will leave next week for her home in Nebraska.

Miss Bessie Echort celebrated her birthday anniversary last evening by entertaining a party of friends at her home.

William Quillinan and sister, Margaret, of Chicago, are visiting in the city, the guest of Miss Kaulis Quillinan, of No. 23 Colerick street.

Henry Brown, Perry Stahl, Henry Lamer, Otto Hold, William Jackson, Leon Levi and John Clever have left for Blue lake, where they will camp out for two weeks.

John Bitsinger, foreman of the Huntington Herald office, was called to the bedside of his father yesterday. Mr. Bitsinger, sr., is lying very low at his home on East Wayne street, and his condition is considered dangerous.

Miss Gertrude Miller, daughter of Mr. and Mrs. F. X. Miller, of No. 35 Charles street, gave a birthday party last evening in which about twenty of her young friends participated. Mrs. Miller served supper on the lawn. The hostess was twelve years old yesterday.

Mrs. Emily Schlemy, of No. 27 Baker street, wife of the stone cutter, is visiting her parents in Chicago. When her visit is over she will make a tour of the lakes, visiting Niagara Falls and all the principal cities of the east. Her friends wish her a pleasant and safe journey.

J. H. Aiken writes G. W. Jones that he is having a fine time fishing in the St. Clair river and sends Mr. Jones eighteen pickerel, forty-eight bass and twenty-three two-pound perch. He says the largest fish caught thereabouts was 3½ feet long and weighed 23½ pounds. Mr. Aiken's reputation for veracity is such that no person will dispute the truth of his assertions.

SNUBS THE EMPEROR

Count Herbert Bismarck Ignores His Ruler.

William May Not Attend the Last Rites.

Emperor's Requests Flatly Turned Down.

The Iron Chancellor's Son Manifests a Disposition to Take Up His Father's Feud.

BERLIN, Aug. 2.—The Neustl. Nachrichten today publishes a dispatch from Friedrichsruhe, which says:

Prince Herbert Bismarck is quite broken down by the worry and vigils of the past few days.

Professor Lenbach says he has not been allowed to paint a picture of the deceased, and a cast of his features was not taken.

As indicating how well the deceased felt on Thursday, it is said that when going to bed at 11:30 he said:

"Well, now I shall have a sleep."

It seems doubtful whether Emperor William will go to Friedrichsruhe owing to the attitude of Prince Herbert Bismarck, who not only has not heeded his majesty's desire to have the remains of his father buried in Berlin, but who seems to have refused Professor Lenbach permission to paint a portrait of the deceased, as the emperor desired.

Besides this, the coffin containing the remains of Prince Bismarck has been closed somewhat hurriedly.

Emperor William leaves Kiel at 3 o'clock this afternoon and will reach Potsdam at 11 o'clock.

The funeral service in honor of the late Prince Bismarck will take place on Thursday morning in the Emperor William's memory church. The federal council, members of the reichstag and of the Prussian diet, and the state and municipal authorities, will be invited.

STARTS FOR FRIEDRICHSRUHE.

KIEL, Aug. 2.—Emperor William and the empress left the imperial yacht Hohenzollern at 2:45 p. m. today, saluted by the warships here, and took a special train for Friedrichsruhe.

THANKS THE PRESIDENT.

BERLIN, Aug. 2.—The United States ambassador, Andrew D. White, has received the following message from Prince Herbert Bismarck:

"We thank your excellency most devotedly for the warm sympathy which the president, in the name of your government and people, caused to be expressed to our family through you. Receive at the same time my heartiest thanks for your personal condolences."

Memorial service in honor of the late Prince Bismarck are being organized throughout the country.

The imperial chancellor, Prince Hohenlohe was the last person permitted to look upon the remains of the former chancellor before the coffin was closed.

Strange rumors on that subject are current, and also as to the cause of the emperor changing his mind and going to Friedrichsruhe. These rumors are puzzling the papers, which continue to print warm eulogies of the deceased, though the socialistic Vorwaerts, accuses Prince Bismarck of working always in the interests of capitalism, adding that whenever he dealt with moral and intellectual factors he failed.

The Polish press declares Prince Bismarck was the greatest enemy of the Poles.

BIG STRIKE ON.

Nail Mill Men of Cleveland Prepare to Battle With the Trust.

CLEVELAND, Ohio, Aug. 2.—A strike was formally declared on today by the Federated Wire Trades at the works of the H. P. Nail company, and American Wire company, both of which are now under control of the recently formed Wire and Nail trust.

The strike, with the rod mill and yard men of the American company, who will join it, will throw about 2,100 men out of employment. Of these 900 are from the H. P. company, and 1,200 from the American works. The strikers have decided not to pay any attention to the old consolidated, or Barnes mill, which is also controlled by the trust, said where the men are all working.

The cause of the strike is the alleged general cut of 33½ per cent in wages and a threatened cut of 20 per cent more.

CIVIL SERVICE.

Examination for Postoffice Service Will be Held Here in October.

The United States civil service commission announces than an examination will be held for the postoffice service in this city on some date between October 1 and 15, 1898. All persons who desire to be examined should apply to William J. Hoyt, the secretary of the board of examiners, at postmaster's office, for application blanks, and full information relative to the scope of the examination. Applications on Form 101 must be filed in complete form with the secretary of the board prior to the hour of closing business on September 1; otherwise the applicants can not be examined. Soon after filing applications, applicants will be notified as to the exact date of examination.

THEY TRUST DEWEY.

But Philippine Insurgents Want to Know What's the Program.

MERRITT AND AGUINALDO MAY CLASH.

NEW YORK, Aug. 2.—A cablegram to the Journal from Cavite, July 30, via Hong Kong, reports that the correspondent has spent two days in interviewing insurgent leaders. As a result, the correspondent says, he discovered evidences of jealousy of the American invasion, but no actual anti-American feeling. The dispatch adds:

"Aguinaldo is respectful towards Admiral Dewey, General Merritt and Consul Wildman, and will go any length to retain Wildman's good opinion, but he holds back from giving energetic help to the United States forces.

"He will give only a negative sort of assistance until he knows the extent of the American policy will take. He is disturbed by telegraphic reports that the United States will abandon the Islands to Spain.

"There are some indications of a clash between General Merritt and Aguinaldo."

FOURTH EXPEDITION REACHES HONOLULU.

SAN FRANCISCO, Aug. 2.—The Call says: The steamer Doric, which arrived late last night, brought news of the arrival at Honolulu of the fourth Manila expedition. The Doric left Honolulu last Monday. The transports arrived there the day before with all on board well and on Monday the boys in blue were ashore and were given a royal reception and a grand feast.

The fourth expedition left here July 15 and reached Honolulu without mishap to either of the vessels.

Great preparations are being made at the islands for a grand celebration of the arrival of the annexation commissioners and the raising of the stars and stripes.

FIVE THOUSAND MEN SAILED SINCE MERRITT.

SAN FRANCISCO, Aug. 2.—In reply to a dispatch received from General Merritt, now at Cavite, General Morrison today cabled that since the departure of the governor general of the Philippines five transports, with 4,897 men, have sailed from this port.

Scarcely had the message been sent before General Morrison received word from the war department that General Merritt had asked to have his command increased from 20,000 to 30,000 troops, in order to be able to meet any emergency which may arise on account of the hostile attitude of Aguinaldo and the insurgent forces.

GREAT FORCE WILL BE NEEDED AT MANILA.

WASHINGTON, July 2.—Although the war department officials will not admit that they have any intention of reinforcing further General Merritt's forces at Cavite, there is reason to believe that some of the troops now in eastern camps who desire to see active service will soon find the opportunity unless the government shall change its present plans with respect to the Philippines.

It is believed to be necessary, even if our claim is limited to the terms stated in the conditions submitted to Spain, namely, the military occupations and government of the territory on the shores of Manila, to furnish to General Merritt a larger force than he has now at his command.

It is realized that 20,000 soldiers can scarcely be expected to maintain United States possession and protect the inhabitants over a territory of this extent, for it must be remembered that the bay of Manila is twenty-five miles deep from the entrance at Corregidor Island to the city of Manila at its head. It will also be necessary to possess and protect a zone extending some distance back of the city in order to make sure of the preservation of the waterworks.

Of course a considerable force would not be necessary if the insurgents under Aguinaldo could be brought to realize that their interests lie in permitting undisputed possession of this territory by the United States.

But it would be expecting too much of the native character to keep before the eyes of the insurgents the rich loot to be had in Manila without an adequate force to protect the place. Then with the growing heat and dampness it is to be expected that illness will develops among the troops; not to the extent that it appeared at Santiago, but sufficient to require some of the men to be invalided home and their places to be taken by fresh troops from the United States.

At present the large majority of General Merritt's force is composed of troops drawn from the Pacific coast or far western states. It is presumed that if he shall be reinforced, the eastern troops will be given an opportunity to make the long voyage to Manila, as this would be in accord with the policy that the war department has now adopted of taking geographical considerations into account in allotting the troops for active service at the front.

GETTING READY.

Indiana Republicans Gathering in Indianapolis.

State Convention Will Meet Wednesday and Last Two Days—A Lively Fight Against Marion County Machine.

INDIANAPOLIS, Aug. 2.—This city is the Mecca of the politicians of the republican party of Indiana. The state convention assembles tomorrow and already the city is thronged with delegates, sympathizers and boomers and a goodly contingent of outsiders. United States Senator Fairbanks will preside over the sessions of the convention, which will continue through Wednesday and Thursday.

The thirty candidates for the eleven nominations that are to be made by the republican state convention have opened an electioneering bureau in the Denison hotel and the supporters of each are coming from all over the state. It is charged that the local machine in this (Marion) county has been planning to manipulate the convention in favor of a slate by trading on the 136 delegates of the county.

The delegates from the country, who have always charged Marion county with taking more than its share of the offices, threaten to defeat every man supported by the local machine at the capital.

Many representatives of the party are objecting to the presence of Harvey M. Lafollette, of Chicago scalp fame, as the manager of the "pool" being formed by the Indianapolis politicians.

The interest in the nominations still centers around the contest for auditor of state. William H. Hart, the deputy auditor, is being opposed on the ground that he has "impugned the honesty" of a good many men by questioning bills presented to the auditor for indorsement.

James F. Henry, the principal opponent of Hart, is backed by the men who feel that they have been mistreated by the deputy auditor.

The party platform will indorse the state administration and make special mention of the saving by reason of the inspection of accounts, and the party leaders are informed that the men who put into effect the reforms will be defeated.

The platform makers have about completed their work. Several representatives of the party were protesting at headquarters today against the convention indorsing the currency reform bill now pending in congress, but the leaders say the few white-metal men in the party will not be heeded. The first session of the convention will be held Wednesday afternoon. The nominations will all be made Thursday.

WOULDN'T ACCEPT.

The Bicycle and Athletic Clubs Will Not Consolidate.

A Proposition Received From the Athletic Club Was Voted Against by the Bicycle Boys.

The Fort Wayne Cycle club last evening received a proposition from the Fort Wayne Athletic club that the two consolidate. The communication from the Athletic club contained a statement of the conditions on which a consolidation would be desirable. The bicycle boys were not favorable to the proposition and without much discussion voted almost unanimously to remain aloof from other organizations.

PAY FOR SOLDIERS.

Camp Thomas Boys to Get Their Money Tomorrow.

Paymasters Will Distribute More Than $1,500,000.

An Army for General Wade Soon to be Formed.

Colonel Culver Has Begun a Course of Severe Discipline for the Regulars of the Fifth Illinois.

CHICKAMAUGA, National Military Park, Tenn., Aug. 2.—The two main subjects of interest at Camp Thomas at present are the expected arrival of the paymasters tomorrow and the expedition which it is reported is being arranged in Washington for Major General Wade. The paymasters are expected to get in at an early hour tomorrow morning and to begin their work before noon. The pay rolls of all the regiments are now complete and there will be little delay in making the payments. The total to be paid will be near $1,500,000.

Nothing has yet been heard from Washington in regard to General Wade's expedition and the officers and men of all the regiments here continue on the anxious seat.

The impression prevails that General Wade will take with him the regiments best fitted, no matter to which corps or division they may belong and every regiment is now attempting to improve its fitness and its right to be included in the expedition.

In one regiment a petition to the war department is being circulated and liberally signed.

Colonel Breckinridge, the new commander of Camp Thomas, is expected to arrive tonight and take charge tomorrow. He is well known to the majority of the officers as he was here some time on inspection business a few weeks ago.

Brigadier-General Franks, assuming command temporarily, did not necessitate his giving up his division for any time and he will be in command at both camps and division headquarters until General Breckinridge arrives to relieve him.

Now that the boys of the Fifth Illinois have had their fun, Colonel Culver will have his inning. He has announced that every non-commissioned officer who took part in the demonstration last week after the regiment was recalled will be reduced to ranks. This work is to be commenced at once and new men appointed in their places. Colonel Culver says his regiment has had a good reputation for years and he intends to sustain it. He added:

"I have ordered all of those non-commissioned officers reduced, that is, those who were absent without leave. I judge there was about a dozen of them. The other men who are guilty of being absent without leave will be fined by the field court."

The new camp of the Fifth has been thoroughly cleaned and now presents a pretty appearance. It will be remembered that there was a good deal of sickness while the men were quartered in their old camp, but the sick reports show a remarkable decrease since the new camp has been pitched. The officers of the regiment expect but little trouble hereafter on account of sickness.

FOR ANOTHER TERM.

Speaker Reed Renominated by the Republicans of the First Maine District.

PORTLAND, Maine, Aug. 2.—The republicans of the First congressional district held their convention here today. After preliminary business the name of Thomas B. Reed was presented to the convention and he was nominated by acclamation amid much enthusiasm. Later Mr. Reed appeared on the floor of the hall.

He was greeted with deafening applause, which prevailed until Mr. Reed began to speak. Then some one shouted, "Take the platform."

"No," said Mr. Reed, "let me have my way once," and the convention broke into laughter.

Mr. Reed then spoke briefly, returning thanks for the renomination.

GIVES BIG ROYALTIES.

Canadian Government Has Taken $2,300,000 From Yukon Mines in One Year.

SAN FRANCISCO, Aug. 2.—A special to the Examiner from Dawson City, of July 27, says:

"Within the last twelve months the Canadian government has taken from the Yukon mines more than $2,500,000. The cost of maintaining the mounted police in Dawson and the salaries of the district officials, have been reported to the Canadian parliament to be in the neighborhood of $400,000, leaving a net annual gain to the government of over $2,000,000.

The largest individual amount that goes to make up this total is the royalty, which has been conservatively estimated to be $800,000.

Miss Nellie Gill, of Port Clinton, Ohio, arrived in the city today and left at 4:30 p. m. for Winona Lake, Ind., where she will be a guest for two weeks at the Culberson college.

Miss Minnie Dickieson gave a 6 o'clock dinner last evening.

THE SENTINEL has made arrangements with a boy at Roma City to deliver the paper each evening.

TO FIX THE BLAME.

War Department Probing the Scandals of the Transports.

THE GUILTY OFFICIALS TO BE UNCOVERED.

WASHINGTON, Aug. 2.—An effort will be made by the war department to ascertain the official at Shafter's headquarters who is responsible for dispatching to the United States loaded with soldiers the transports which are alleged to be unfit for the work to which they are put. With this end in view Surgeon General Sternberg has sent the following dispatch to Major Havard, the surgeon with Shafter's army:

"The management of the medical department at Santiago is severely criticised. Sick and convalescents sent on quartermasters' transports are said to be over-crowded, not properly supplied with medicines or medical attendance or with suitable light diet. Who is responsible? Report in full and take measures to prevent similar occurrences in future."

At the same time a rigid investigation is to be made of the charges by the Red Cross officials and others concerning the unfitness of the transport Concho, which reached New York several days ago. Secretary Alger has taken much interest in this matter following so soon the case of the Seneca, which about ten days since brought to New York a large number of sick and wounded, which vessel also was said to be unsuitable. The investigation will be made by Col. C. H. Holt, of the inspector-general's office.

General Sternberg feels that injustice is done the officers of his department in the criticisms made of the use of the transports in bringing the sick and wounded north and in the preparations for the journey. As a matter of fact, he said today, he did not know that the Concho was to be used for a temporary hospital ship, the first intimation of that character being received when a telegram reached him announcing the arrival of the vessel at Norfolk. The loading of the ship with supplies, including ice, other than medical character, does not come under the supervision of his bureau and his officers, he says, should not be charged with any derelictions of that character.

PERU AND PEKIN REACH HONOLULU.

HONOLULU, July 29—via San Francisco, Aug. 2.—The transports Peru and City of Peking arrived on the 23d. Three men with typhoid fever were removed from the ships to the hospital. Lieutenant Hunt, of the Fourteenth infantry, is one of the sick. Charles H. Watson, bandmaster of the Thirteenth Minnesota regiment, died in this city on the 21st, of typhoid fever, contracted on the voyage from San Francisco.

A BODY OF SPANISH REPORTED WIPED OUT.

MADRID, Aug. 3—3 a. m.—An official dispatch from Havana says 200 insurgents recently attacked a Spanish detachment, numbering twenty men and commanded by a sergeant, near Hanaos, in the western part of the Province of Pinar del Rio. After a fearful fight, the dispatch adds, the insurgents fled, having killed ten of the Spaniards and wounded a number of others. The survivors, it appears, are to be decorated and recompensed.

SHAFTER RELEASING POLITICAL PRISONERS.

WASHINGTON, Aug. 2.—The war department has posted the following telegram from General Shafter, dated Santiago de Cuba, August 1:

"All political prisoners have been immediately released as soon as we reached them. Have not heard from Guantanamo, but General went there three days ago to receive the surrender of arms and political prisoners. They were undoubtedly released on his arrival."

HEALTH REPORT FROM SHAFTER.

WASHINGTON, Aug. 2.—The detailed condition of affairs at Santiago, together with a list of the deaths on each day, is shown in the following telegrams from General Shafter:

"Sanitary condition for July 29: Total sick, 4,161; total cases of fever, 3,212; new cases of fever, 600; cases of fever returned to duty, 732; deaths, 10.

"Sanitary condition for July 30: Total sick, 3,893; total cases fever, 2,602; new cases fever, 548; cases of fever returned to duty, 815; deaths, 5."

In another dispatch dated today, General Shafter says he has in the hospitals wounded and sick prisoners to the number of 2,581.

VIOLATORS OF LAW.

An Effort Being Made to Enforce the Sunday Laws.

The Committee of One Hundred Will Prosecute Persons Who Desecrate the Sabbath.

The Committee of One Hundred, made up of law-abiding citizens of Fort Wayne, have determined, if possible, to enforce the Sunday laws. Yesterday affidavits were sworn in by Revs. J. S. Ainslie and W. D. Parr, charging Russell George, Frederick Schmeuckle, William Hollenbeck and Frank Belchin with maintaining screens in front of their bars on Sunday. These gentlemen were part of a committee appointed to investigate the alleged Sunday violations. Four sub-committees were appointed. Those from the east and north side reported that they found all places quiet and no violations. The south side committee did not report. Revs. Ainslie and Parr were members of the committee which visited the downtown places. They assert that James Summers' saloon was the only place visited where the bar was visible. At other places men seen going in and out and at still others voices could be heard within. Some of the persons who visited the saloons even went so far as to invite the reverend gentlemen to go in with them.

The result of these visits about the city were the filing of the above affidavits, and more are to follow. THE SENTINEL was informed on reliable authority that the cases would be contested and that jury trials will be demanded. Should convictions be returned the cases will be appealed to the state supreme court.

The laws of the city should be enforced, and especially those which are made to protect young men against pitfalls offered by the liquor traffic. If the authorities are unwilling to enforce these laws, then there certainly are enough citizens favorable to law and order who will at least make an effort to supress the Sunday evils.

The affidavits against Schmeuckle and George are filed in Justice Erance's court, the one against William Hollenbeck in Justice Bollerman's court, and against Belchin in Justice Huser's court. The cases against Schmeuckle and George have been set for tomorrow afternoon and the one against Hollenbeck is being heard this afternoon. Belchin appeared before Justice Huser and was granted a continuance until Thursday afternoon. He is a member of the Local Liquor league, and it is understood will fight the case and demand a jury trial.

NOTES.

The superior court adjourned today until August 15.

The circuit court will not convene again until September 1.

Judge Roby overruled motions for new trials in the cases of the Farmers' bank vs. Meisker and Buck against the Fraternal Insurance company.

The motion for a new trial in the case of Shoshoy vs. the City of Fort Wayne was argued yesterday before Judge Roby who took the matter under advisement.

Emmett Hatch was fined $1 and costs by Justice Franco this morning for assault and battery on Delvin Cone. The parties reside in Huntertown.

Louisa Wessel has sworn to an affidavit charging Louisa Baumgard with provoke. Squire Franco will try the case.

Justice Huser fined Charles E. Hoffman $1 and costs for provoking Jacob Meyer. The case will be appealed to the circuit court.

RILMA IS HERE.

W. O. Foote Arrives at the Track With His String of Four.

W. O. Foote, of Houston, Texas, arrived at the Driving park this morning with his string of horses, four in number. The leader of the stable is Rilma, with a record of 2:10, and she will start in the 2:10 trot on Wednesday. The other horses in Mr. Foote's stable are John Nolan, 2:12, who will start in the 2:28 trot on Monday; Parrell, jr., 2:18½, and Rena, a green trotter with no mark. Mr. Foote says the 2:10 trot will be the event of the season in the grand circuit.

HEALTH in Indiana was unusually good for the quarter ending June 30. The report of the state board of health will show 1,000 fewer deaths than the previous quarter. This is remarkable, inasmuch as April, May and June are usually months fraught with mortality.

THROUGH the influence of Perry S. Heath, assistant postmaster general, several Indiana men will be authorized to establish the first national bank opened in Honolulu since the annexation of Hawaii. Fred Heath, of Muncie, a brother of the assistant postmaster general, will be at the head of the institution. The bank will be known as the First National Bank of Honolulu.

SLATES sometimes go through quickly. It depends upon circumstances. The North Dakota republican state convention at Fargo placidly nominated its fourteen candidates on the state and congressional ticket in twenty-three minutes. Every one was by acclamation and there was objection to none. Harmony was never whole-saled with such a prodigal hand, says an observant correspondent.

WESTERN papers are printing an interesting story of the alleged discovery in Iowa of the missing heir to some $3,000,000 worth of property, left by his bachelor uncle when he died in Oregon, but an elaborate statement of the value and attractiveness of two summer resorts which is incorporated in the narrative may give rise to the suspicion that it is an ingenious attempt to advertise places where guests in these war times are not too numerous.

CHARLES E. WILSON, formerly managing editor of the Lafayette Daily Courier and now private secretary to Governor Mount, has been mentioned prominently for superintendent of the Bureau of American Republics, which office is to be filled October 1. Mr. Wilson is one of the best and brightest newspaper men in Indiana, and nothing would please better his editorial brethren throughout the state than to see him get this appointment or any other that his tastes or ambitions may fancy. Charley Wilson can fill any position in which he is placed and fill it well.

THE Gazette says that the property owners are becoming much concerned over the condition and quality of the new asphalt pavement that is being laid on several streets in the south part of the city. We have great faith in the integrity and vigilance of the members of the board of public works and feel sure they will never accept from the contractors any pavement that is not what it should be and fully up to all requirements of contract. If, after the streets are completed, it is demonstrated that the pavement is not what the contract requires, the property holders should of course refuse to pay for the work until it is made what it should be.

THESE words from some anonymous source of wisdom are worth the heed of every man who owns a horse: "The inhumanity of keeping horses in tightly locked barns these hot, sweltering nights is a subject that demands the attention of our humane citizens. Owners of horses should remember that their faithful and intelligent animals suffer as much by having their barns tightly closed as would a person these warm nights by sleeping in a house with every window closed. The dumb beasts express their suffering throughout the nights by continued stamping. Better permit all the circulation of air possible through the horse stable and make the comfort of the horse paramount at this season of the year."

A NUMBER of ministers of Fort Wayne have inaugurated a crusade to bring about enforcement of the Sunday saloon laws. To convince themselves that the law was not enforced they visited a number of saloons and found that very little attention was being paid to the law. It is too bad that the ministers have to engage in such work as this as officers are elected and sworn to see that the laws are obeyed. As long as the voters care more for party than they do for the welfare and repute of the city just so long will there be bad officers and poor enforcement of the laws. Last spring the democratic and republican parties dodged this question because they were afraid to meet it honestly and courageously. It was known that the law was not being enforced and that it would not be. Each party was afraid it would fail to get the votes of the pro-saloon classes if any stand were taken in favor of compelling obedience to the laws. The law-abiding elements were given no choice.

Bismarck's First Faith.

The two greatest statesmen of the century, Bismarck and Gladstone, who have died within a few weeks, being contemporary, were often contrasted. Bismarck was an imperialist of the most absolute sort. Gladstone was a commoner of great intensity both in his belief and practice of democracy. In one respect Bismarck and Gladstone were one. Each had a deep and abiding faith in the Christian religion. Gladstone's faith absorbed his whole being in his last days as it had guided his conduct throughout his life, in his public career and in his private concerns. In his declining years Bismarck's faith in his God became firm and sustaining. When the fierce activities of war and the swirl of European politics were at an end for him there came the consolation of the faith in which he was bred. He faced death with calmness and fortitude, willing for the summons and prepared to go. But his faith was always a part of him. During the Franco-Prussian war he wrote:

"If I were not Christian I would not continue to serve the king another hour. Why should I incessantly worry myself and labor in this world, exposing myself to embarrassments, annoyances and evil treatment, if I did not feel bound to do my duty on behalf of God? Did I not believe in a divine ordinance which has destined this German nation to become good and great, I had never taken to the diplomatic trade, or, having done so, I would long since have given it up. I know not whence I derive my sense of duty if not from God. Orders and titles have no charm for me. I firmly believe in a life after death. Deprive me of His faith and you rob me of my fatherland. Were I not a staunch Christian, did I not stand upon the miraculous basis of religion, you would never have possessed a federal chancellor in my person."

The testimony of intellectual Titans like Gladstone and Bismarck and others of the world's greatest, humbly acknowledging their allegiance to the Christian religion, puts to rout the whole legion of pigmy scoffers.

AT ISLAND PARK.

Epworth League Day Celebrated Saturday.

Rev. Dr. Parr, of Fort Wayne Conducted the Services of the Day—An Auspicious Occasion.

Last Saturday was Epworth League day at Island Park assembly and the occasion was fittingly and auspiciously observed. Owing to rains in the morning the attendance was not what it otherwise would have been, but it was large, nevertheless, a good-sized crowd being present. The following details are furnished by the Kendallville Daily Sun:

Rev. W. D. Parr, of Fort Wayne, conducted the services of the day. Dr. Parr is one of the ablest preachers in the North Indiana M. E. conference. At the afternoon meeting the Harmony quartette sweetly sang, and a male quartet consisting of Revs. Cissell, Johnson, Powell and Sprague, of Fort Wayne, rendered a selection. Dr. Joseph F. Berry, of Chicago, editor of the Epworth Herald, lectured on "A Trip to Ireland." The address was a very entertaining one. His lecture was both humorous and instructive.

In the evening, after selections by the band, a miscellaneous program was rendered. There was a selection by the Harmony quartet. Miss Cleo Carter, soprano of the quartet, very charmingly sang a solo, with violin and piano accompaniment, Prof. F. A. Thomas, of Kendallville, leader of the K. P. band and orchestra at the park, accompanying her on the violin, and Miss Duck on the piano. Miss Carter is the possessor of a voice of much sweetness and power. The audience requested an encore, but she did not respond. Miss Jessica Lycan gave a beautiful pantomime rendition of "Suwanee River" while that song was being sung. Dr. Berry and Dr. Curts, of Chicago, the latter one of the publishers of the Epworth Herald, each gave a short talk on Epworth league work and short talks were given by Rev. L. J. Naftzger, Dr. Trever and others.

Lem R. Hartman yesterday let to J. O. Brown the contract for a fine new residence to be erected on Jackson street, between Wayne and Washington. Mr. Hartman will make his future home therein.

FINAL WEEK!

Grand-stand finish of the greatest and most illustrious Clearing Sale that has ever taken place in this city. A LUCKY SCORE.

But the Old Soldiers Were on the Long End of It.

The Hoosiers Beaten 16 to 1—Norcum Was Batted Hard—Fort Waynes Could Not Hit Streit.

The Old Soldiers had some fun with Norcom's curves yesterday at Dayton. He delivered the ball to the plate in tempting fashion and Mr. Armour's pets lined out home runs, etc. Streit was in the points for the Old Soldiers, and try as they would the Hoosiers could only solve his delivery for four hits and one run was all they could send over the rubber. The teams play today and tomorrow with Reiman and Brodie as the twirlers. Score:

NOTES.

Norcom had an "off" day yesterday and it was "off" with a vengeance.

Platt and Flick are the two biggest finds of the season. Platt has shut out his opponents in the last two games pitched.

The Daytons and Fort Waynes were arrested and fined by a country 'squire after Sunday's games. The 'squire held court on a box.

Dayton News: "Third Baseman Babb, of the Fort Waynes, is a comical 'duck.' He fields his position well and occasionally gets a good hit. Pittsburg is after him, having made an offer."

Big Dan McCann, Baltimore's first baseman, has not had an error in the last twenty-three games. He has accepted in these games 223 chances, with never a misplay. That is a record that will probably not be beaten this year.

Public Ledger: "Criger, the young Clevelander, comes pretty near being the best catcher in the league. He has not the experience as a backstop nor is he quite as quick in throwing as McFarland, but he is a better hitter than the Philadelphian."

Dayton News: "It was simply impossible for the Soldiers to hit Brodie effectually. His snaky balls came like softly flying feathers, but a breath of air usually steered them away when the Vets prepared to hit. Never before did the Soldiers strike more wickedly or more foolishly. His curves came as softly as the June breezes, but the way they jumped bridges was peculiar and somewhat remarkable. Brodie will be seeking admission to the major league soon. His success lies in his slow balls. When hit only short drives are made."

RAILROAD TO BE BUILT.

Chinese Promoter Has Enlisted the Aid of British Capital.

SHANGHAI, Aug. 2.—According to a dispatch from Pekin under date of July 31, Young Wing (not Yung Ping as previously given), a Chinese graduate of Yale, has obtained an extension of time for his concession for the Tien Tsing-Chin Kiang railroad, alleging that he has received the support of an English syndicate to supply the necessary capital—50,000,000 pund ($25,000,000). But, it is said, Hou Yu Fen, one of the directors general of the Chinese railroads, in face of Russian opposition to the loan, has broken off negotiations with the Hong Kong bank, which proposed to supply the capital for building an extension of the Tien Tsin Shan Haikwan railroad to Nu Chwang. The latter is distinct from Young Wing's concession.

THEY ARE POPULAR.

Public Baths the Thing in the Quaker City.

Philadelphia Now Has Ten in Use—Councilman Hench Gets a Letter From a Promoter of Public Baths.

Councilman G. R. Hench, who has proposed to the city council that Fort Wayne be supplied with a public bath and natatorium, has begun the collection of data showing that such institutions are not only greatly desirable, but entirely practicable. A letter from Select Councilman J. Emory Byram, of Philadelphia, gives some details of the public bath of which he was the promoter in Frankford, one of the wealthy resident districts of Philadelphia. This letter says:

"MY DEAR SIR: The building of a free bath house for the use of the public is one of the most popular measures that can be opposed in Philadelphia, and if you build one in Fort Wayne you will wonder why you did not build it years ago. The one I was instrumental in having built in Frankford, Philadelphia, cost $14,000. There are now ten in use in this city from June 15 to October 15; Mondays and Wednesdays for women and the rest of the week for men and boys. There are not one-half enough of these public bath houses built to accommodate the demand. In the one at Frankford, where I live, 3,500 persons have been known to avail themselves of its privileges in one day. This is the first one in Philadelphia to have the hot water attachment. There are six needle (shower) baths for hot water. If it is possible I will send you a set of plans and specifications. The one in Frankford is built on a lot 100x130. The cement pool is 80x35. If I had it to go over it would be 100x40. The depth is gradual from four feet to seven feet. The water flowing in and out constantly keeps it clean and fresh. Twice in the week the pool is emptied and washed with large fire hose to thoroughly cleanse it. The entire inside is cement. A broad walk extends around the pool and the small closets in which to dress and undress are arranged around the two sides and rear end. The front has apartments for offices and toilet rooms for each sex. The keeper gets $600 per annum and his wife must be on duty the two ladies' days free of cost to the city. Very truly,

"J. EMORY BYRAM."

SWEPT THE STATE.

Democrats Carry Alabama by 60,000 Majority.

Little Interest Taken and a Light Vote Polled—Populists Lose in All Their Strongholds.

BIRMINGHAM, Ala., Aug. 2.—Sixty out of sixty-six counties in the state have been heard from as to yesterday's election, though the returns from none are as yet complete, owing to the slow method of counting and returning.

Reports from the partial returns received indicate a democratic majority of between 50,000 and 60,000.

Jefferson county gives a democratic majority of about 4,000. In the city of Birmingham 2,000 votes out of a registration of 3,500 were polled. Of these the democrats received 1,600. The independent county and legislative candidates in this county were badly beaten.

Reports from over the state show that the populists have lost heavily in all their strongholds.

MYSTERIOUS ASSAULT.

Three Members of a Baltimore Family Receive Fatal Injuries.

BALTIMORE, Md., Aug. 2.—A mysterious assault which may result in a triple murder was made upon a family residing in the lower part of the city early this morning. The victims are:

Mrs. Hannah Lillis, widow, aged thirty-three; Winnie Lillis, aged seven, and Mrs. Bessie Whetler, aged twenty-nine.

Mrs. Whetler, who is separated from her husband, boarded with Mrs. Lillis, who with her three children lived at 211 South Leonards alley, near the wharves.

Shortly after daybreak the police heard cries of "Murder," and hastening to the house, found the woman and the little girl bleeding and unconscious from wounds about the head, evidently inflicted with the blunt end of an axe. The only persons who were able to furnish any information regarding the affair were two Bohemians who claim to have seen a negro leave the house and who set up the outcry which alarmed the police. All the victims are in the hospital and the physicians think they have little chance of recovery. No motive can be assigned for the crime.

Challenge for the America's Cup.

LONDON, Aug. 2.—The honorary secretary of the Royal Ulster Yatch club, Mr. Kelly, has telegraphed to the London office of the Associated Press saying that the challenger for the America's cup is Sir Thomas Tipton. Sir Thomas Lipton is a new comer in yachting circles. His yacht is to be named the Shamrock.

Grand Circuit Races Postponed.

COLUMBUS, Ohio, Aug. 2.—The first day's racing of the Grand circuit meeting here was postponed on account of heavy rains. There will still be five days' events, extending over Saturday.

NEW LAWS NEEDED.

Extra Session of Congress May Soon be Called.

It Depends Much on the Treaty With Spain—Statutes Touching the Army Will Need Revision.

WASHINGTON, Aug. 2.—President McKinley will call an extra session of both houses of congress as soon as Spain accepts the terms of peace offered by the United States.

It has always been understood that the senate would be convened as soon as the treaty of peace was ready to be acted upon by that body. The attention of the president has been called, however, to a situation which makes the assembling of the entire congress necessary. This situation can be explained in a few words.

Under the law which provides for the raising of the volunteer army, that army goes out of existence as soon as the war ceases.

When this law was framed it was not for a moment supposed that after the war had ended there would be any necessity of keeping the army intact. The developments of the war made it very evident that instead of sending the army back to civil life, fully 100,000 men will continue to be needed.

It is the present intention to distribute no fewer than 50,000 soldiers throughout Cuba, with 30,000 in the Philippines and probably 20,000 in Porto Rico. Under the law, as soon as hostilities cease the volunteer army is disbanded and the regular army goes back to its peace footing, thus leaving only 27,000 men in the service. This is a total far too small for the work that will be required.

Consequently the aid of congress will be needed to frame new laws which will keep an adequate army for garrison purposes.

In addition to this, laws must be passed to meet the new requirements of government in the Philippines and Porto Rico.

The president is naturally averse to calling congress together during the hot weather, and it may be decided that the war is not ended until the senate has ratified the treaty of peace.

In this case congress will not meet until the first or middle of September, as it will take at least a month or six weeks for the full details of the treaty to be discussed and framed. The present outlook is, however, for an extra session at a much earlier period in the hope that its work can be concluded before the fall campaign has reached its height.

WANT MORE SPEED.

New Battleships May be Made Faster.

Displacement to be Increased Two Thousand Tons More and Speed to be Eighteen Knots.

NEW YORK, Aug. 2.—A special to the Times from Washington says: The question of the speed of the three battleships provided for by the new naval program has been reopened again.

The proposition now under consideration is to give the proposed ships a displacement of 13,000 tons, instead of 11,500, and to fix their minimum speed at 18 knots, instead of 16. Chief Engineer Melville has been asked to submit designs of the new improved machinery, including water-tube boilers, which he proposes to install, with a view to developing an 18-knot speed. These designs ready, Chief Constructor Hichborne will set his bureau of construction and repair to work on designs for a hull to accommodate that machinery, with the requisite coal space and the desired batteries.

The new scheme contemplates a main battery of 12-inch and 8-inch guns, instead of 13-inch and 6-inch, as in the present designs, this change being prompted only by the lessons learned from the Santiago engagement.

A further, and a most important change, proposed to be made in the new ships, is the addition of copper sheathing. At a meeting of the board of construction it was unanimously voted to have the new battleship sheathed with a view to preventing the fouling of their bottoms and the loss of speed resulting therefrom. This is a reversal of the board's position on the sheathing question. It has stood heretofore three to one against sheathing the bottoms of the battleships, Commodore Hichborne being the only advocate of the reform.

The experience of the fleet in southern waters during the present war, when the battleships and cruisers have steadily lost what speed they started with, the result of marine growth on their hulls, has convinced the board that, costly as the sheathing is, it will be economical in the long run, since it will enable the ships to retain their speed for an indefinite time.

Communication With Ponce Re-opened.

NEW YORK, Aug 2.—The Western Union Telegraph company's central cable office is advised by the West Indian and Panama Telegraph company that communication with Ponce was re-opened yesterday, under censorship at Ponce by the United States government. Messages for the interior by that route will not be accepted. The San Juan cable is still open under censorship by the Spanish government.

Jumped From a Tenth Story Window.

NEW YORK, Aug. 2.—George Tod, a wealthy resident of this city, committed suicide today by jumping from a tenth story window in the Hotel Majestic. Mr. Tod has been a sufferer from melancholia for some time past. He was a brother of J. Kennedy Tod, of this city.

Earl of Mansfield Dead.

LONDON, Aug. 2.—William David Murray, fourth earl of Mansfield, is dead. He was born in 1806, had been a lord of the treasury and a lord high commissioner of the church of Scotland.

HE WAS IN DISTRESS.

Linares Tells of the Suffering of His Troops.

There Was No Hope for His Half Fed and Miserable Soldiers—Surrender Was Inevitable.

(Correspondence of the Associated Press.)

GUANTANAMO, Province of Santiago de Cuba, July 25.—An official report of General Linares to the Madrid government, transmitted on July 13, is full of pathos, as it tells of Spaniards thousands of miles from home striving to defend property which the owners have deserted. The report sent by cable on July 13, was addressed to the minister of war.

It was translated for the Associated Press by Commodore Schley. The text in full is as follows:

"Official cablegram, July 12, 1898. To the Minister of War, from the General in Chief of the Division of Santiago de Cuba: "Although confined to my bed by great weakness, and in much pain, the situation of the long suffering troops here occupies my mind to such an extent that I deem it my duty to address your excellency, that the state of affairs may be explained.

"Enemy's lines very near the town on account of the nature of the ground; our lines are in full view from them. Troops weak; sick in considerable proportions not sent to hospitals owing to the necessity for keeping them in the intrenchments. Horses and mules without the usual allowance of forage. In the midst of the wet season, with twenty hours daily fall of rain in the trenches, which are simply ditches dug in the ground, without any permanent shelter for the men. The men have nothing but rice to eat and no means of changing or drying their clothing.

"There have been considerable losses. Field officers and company officers are killed, wounded or sick, and deprive the troops of necessary orders in critical moments.

"Under these circumstances it is impossible to fight our way out, because in attempting to do so our force would be lacking one-third of the men, who could not leave, and we would be weakened besides by casualties caused by the enemy, resulting finally in a veritable disaster without saving our diminished battalions.

"In order to get out, protected by the Holguin division, it will be necessary for them to come and break the enemy's lines in one place, so that my forces may break through in another, both acting in conjunction. For this operation the Holguin division will require eight days, and will have to bring a large amount of rations, which it is impossible to transport. The solution of the question ominously imposed upon us.

"Our surrender is inevitable, and we can only succeed in prolonging the agony. The sacrifice is useless, and the enemy understands this. They see our lines and theirs being well established close up. They tire out our men without exposing themselves. Yesterday they cannonaded us on land with such an elevation that we were unable to see their batteries, and from the sea by the squadron, which had perfect range and bombarded the town in sections with mathematical precision.

"The complete exodus of the inhabitants, insular as well as peninsular, includes the occupants of the public offices, with few exceptions. There only remain the clergy, and they yesterday started to leave the town with the archbishop at their head.

"The defenders here cannot now begin a campaign full of enthusiasm and energy. They came here three years ago, struggling against the climate, privations and fatigue, and now they are placed in these sad circumstances where they have no food, no physical force, and no means of recuperating. They are defending the property of those that have abandoned it and those that now are being fed by the American forces.

"The honor of arms has its limits, and I appeal to the opinion of the whole nation as to whether these long suffering troops have not kept it safely many times since May 18, when they were subjected to the first cannonade. If it is necessary that the sacrifice be endured for reasons of which I am ignorant, or that some one shall assume the responsibility of the unfortunate termination which I have anticipated and mentioned in a number of telegrams, I faithfully offer myself on the altar of my country for the one, and for the other I will retain the command for the purpose of signing the surrender, for my modest reputation is of little value as compared with the country's interests."

GREAT FUEL FIELDS.

Copper River Miners Abandon Gold Mines to Locate Coal Claims.

PORT TOWNSEND, Wash., Aug. 2.—Letters received here state that many prospectors between Copper river and Cooke's Inlet, Alaska, have abandoned their search for gold and are locating coal claims.

The country is said to be one mass of coal, which is claimed to be an excellent quality of lignite. Near Graham's bay, W. A. Moore found a deserted coal mine with appliances showing the mine evidently had been worked by Russians before Alaska was ceded to the United States.

BIG CROWDS.

Robison Park Theatre an Attractive Place.

Notwithstanding the fact that there were no excursions to Robison park yesterday, the attendance at the theatre was good, nearly every seat being occupied when the curtain went up, both afternoon and evening. The performance is good—one which pleases the masses better than anything yet seen there—and it will continue to draw big audiences during the week. Barry and Hague appear to be the favorites with many of the patrons of the show, though none of the performers fail to draw forth liberal plaudits. An evidence of the entertaining character of the show is the fact that many who attended it Sunday were again there yesterday and last night and showed by their action that they enjoyed it very much.

TO FREE CUBA

And Not to Grab Land the Purpose of This War.

That Is the View of Senator J. K. Jones and He Is Opposed to Seizing the Philippines.

ST. LOUIS, Mo., Aug. 2.—Senator James J. Jones, of Arkansas, chairman of the national democratic committee, who was in the city conferring with prominent members of his party, had this to say concerning our foreign policy before he left for New York:

"The United States is pledged to the world that an independent and stable government shall be established in Cuba. When I voted for that resolution nothing was said about imperialism. This country cannot afford to go back on its pledge. These are my private views, which I believe are those of the democratic party.

"I do not know what conditions may arise respecting Cuba, but I have never known a Spanish-American community capable of self-government and it is possible that, since we set out to free Cuba from Spanish domination, we may be compelled to pursue a course which will eventuate in the control of the island.

"While I am not in favor of the acquisition of territory in the tropics, this course would be less objectionable than any other.

"Cuba is adjacent to the United States, as is Porto Rico, but the thought of annexing the Philippines is preposterous, undemocratic, and not in accordance with the principles handed down from the days of Thomas Jefferson.

"We began this war to secure the independence of Cuba and nothing more. When we have accomplished that end and Spain has indemnified us for the enormous war expense, our mission will be done."

A RAISIN POOL.

California Growers Preparing to Form a Combine.

FRESNO, Cala., Aug. 2.—President Kearny, of the California Raisin Growers' association, announces the plan to pool the raisin products in the state. He stated that 75 per cent of the crop in Fresno, Tulare and Madoria and Kings countries has been signed, and that over 50 per cent. of the crop of Kern county has been thrown into the pool. Agents are now at work in Southern and Northern California and with the contracts they secure the association will control 90 per cent. of the output.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at Drier & Bro.'s drug store. Regular size 50c and $1.00. Every bottle guaranteed.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogerly, Lexington, Ky." Sold by Dreier & Bro., druggists.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

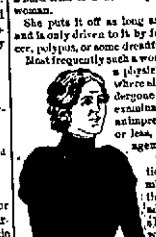

CONSULTING A WOMAN.

Mrs. Pinkham's Advice Inspires Confidence and Hope.

Examination by a male physician is a hard trial to a delicately organized woman.

She puts it off as long as she dare, and is only driven to it by fear of cancer, polypus, or some dreadful ill.

Most frequently such a woman leaves a physician's office where she has undergone a critical examination with an impression, more or less, of discouragement.

This condition of the mind destroys the effect of advice; and she grows worse rather than better. In consulting Mrs. Pinkham no hesitation need be felt, the story is told to a woman and is wholly confidential. Mrs. Pinkham's address is Lynn, Mass., she offers sick women her advice without charge.

Her intimate knowledge of women's troubles makes her letter of advice a wellspring of hope, and her wide experience and skill point the way to health.

"I suffered with ovarian trouble for seven years, and no doctor knew what was the matter with me. I had spells which would last for two days or more. I thought I would try Lydia E. Pinkham's Vegetable Compound. I have taken seven bottles of it, and am entirely cured."—MRS. JOHN FOREMAN, 26 N. Woodberry Ave., Baltimore, Md.

FORGED SIGNATURES

Scalpers Use the Name of Commissioner Donald.

Hundreds of Tickets Are "Declared in Violation of Law—Local and Personal Gossip.

The Central Passenger association yesterday discovered that some ticket brokers were handling a number of tickets on which the signature stamp of Commissioner Donald, the official stamp of the association and the perforating stamp used to validate the return portions of tickets had all been forged, says the Chicago Record. The tickets are the return portions of tickets from Chicago to eastern points, issued on account of the recent meeting here of the Young People's Christian union of the Universalist church. The return limit on those tickets expired July 21, but tickets deposited at the offices of the association were extended until August 10. The railroad men claim that the brokers bought a lot of tickets which have now expired, and in order to get rid of them the necessary stamps on the back had to be supplied to make them pass as extended tickets. In all some 3,000 tickets were sold for the meeting, of which about half were deposited for extension. To prevent the use of these forged tickets the association has arranged to give all holders of deposited tickets an order upon the railroads for new tickets instead of using the return portions of the original tickets. The forged stamps were very skillfully executed, and only the closest examination could distinguish them from the originals.

SUMMER WORK.

Lines Followed by Associated Charities During Hot Weather.

Not so Many Cases of Absolute Want as in the Winter, But Some Families Need Sympathy and Encouragement.

A great many persons do not realize the amount of work done by organized charitable associations during the summer months, thinking that effort is necessary only during the winter when people are out of work and unable to secure necessities for themselves and their families. It is a mistaken idea, and one of the most difficult with which those engaged in charitable endeavor have to combat. While the wealthy or well-to-do may be enjoying vacations, the poor we have always with us. They may not be in the distress that cold weather brings them, but they need sympathy, encouragement and attention just as well as at any other season. True, there are not so many cases of absolute want, yet there are some and these must be cared for. Then again, the principle employed by those who have made charitable and benevolent work a study is that it is much better to make a family self-supporting and independent, if possible, than to dole out alms, little by little, until the recipient finally loses all desire to make something of himself and seeks to live by what he can secure from others. A well organized society, prepared to meet emergencies as they arise, ready for action throughout the entire year, can certainly work more acceptably and efficiently than if it disbanded three or four months during the year, and then required two or three months of the remaining time to get in proper working order.

The work sought to be done by the Associated Charities requires constant attention. While the demands for aid are not so great during the summer, many things require attention. The cultivation of garden tracts, under supervision of the association, is in itself no small affair. The labor yard also is kept open, that there may be no occasion for men to traverse the streets, demanding help from the people upon the plea that they can get no work by which to earn a meal or lodging. Friendly visitation must be done in summer and often better results can be reached because the dependent or partly dependent can be given counsel, advice and urged to lay aside, during the time they are earning wages, something to help them when the work grows slack or ceases altogether. In fact, various methods and plans can be employed to ameliorate the condition of those who must be looked after so that the distress which comes with the advent of winter may be greatly lessened.

This is the line of work engaged in by the Associated charities during the summer, and those who have given the matter consideration are convinced that good results have been obtained. To the greatest efficiency, requires the hearty co-operation of the people, and it is encouraging to know that as the objects of the organization are becoming better known, this co-operation and encouragement are being more heartily extended.

Drillers are at work in the sand in Well No. 2 at New Haven and it is anticipated that oil may be found at almost any hour. Representatives of the Standard Oil company and other corporations are watching the work with interest.

THE CAPTAIN'S KICK.

Capt. W. F. Ranke Has a Statement to Make.

Says the Twenty-eighth Battery Has Had a Square Deal and He Has No Complaint to Make.

Recently The Sentinel's special correspondent at Camp Thomas wrote to this paper that the boys of the Twenty-eighth battery were feeling disappointed and sore because they had not been ordered for service in Porto Rico, and that there was a belief that it was a question of "pull" as to what organizations were given opportunity to go to the front. He also stated that the Twenty-eighth's trained artillery horses had been taken to equip other batteries. Now Captain Ranke writes to say that everything is all right and satisfactory and that he wishes it understood that the battery was not held at Camp Thomas for inefficiency. That will be readily believed, for next to the Indianapolis battery the Fort Wayne battery ranks first in efficiency. Captain Ranke's letter follows:

HEADQUARTERS TWENTY-EIGHTH LIGHT BAT., IND. VOL.,
CAMP GEO. H. THOMAS,
CHICKAMAUGA PARK, GA.,
July 27, 1898.

To the Editor of The Sentinel:

The local correspondent of your paper has seen fit to send you some camp news (?) which does the battery and its officers an injustice. That anyone could send such rot and put his name to it is beyond my conception. There are eleven batteries here. Out of these five, and the Fort Wayne battery amongst them, have been having long marches, mounted drills and special instructions, with the expectation that five batteries would be called on for the Porto Rico expedition. To our sorrow the order came for four batteries only, and I, being the junior officer, was compelled to remain. On account of sickness of horses the four batteries were short of them and I, having broken horses, was asked to turn over fifteen. This I cheerfully did, knowing that the batteries could not take new horses on a campaign. All the remaining batteries had to furnish one thing or the other to equip the outgoing batteries. Battery A, Georgia, lost two thirty-two-inch breech-loading guns; another, an Ohio battery all their harness. As it was the four batteries were left only partially equipped.

The boys did go to Lytle after a car load of horses, but it was found out later that they had been shipped from Ohio for the Ohio artillery, and through a mistake at the office we were told they were ours.

The Zollinger battery today is the only battery on the grounds that ever participated in forced marches or that had mounted drills.

I am so sorry that the article appeared, as so many of our friends have written us regarding the same. Those not in touch with the members of the battery might think we had been set back through inefficiency.

If the correspondent had a kick coming the Fifth regiment, Illinois, surely has one. They got orders for Porto Rico and broke camp at 3 a. m. and marched out of Camp Thomas at 5 a. m. for Rossville. It was raining in torrents the entire march, but not a murmur, all were glad to serve their country, but when they arrived, to their sorrow, they were told that the order was recalled. I never in all my life saw such a sore crowd.

I hope that the above will explain all about us being left (?) and so on.

WM. F. RANKE,
Captain Commanding.

DEATHS AND FUNERALS.

John Shutt, of Spencerville, father of Dr. J. M. Shutt, of this city, died at his home Sunday morning. Mr. Shutt had been ill for several weeks and had been failing for some days. He arose on Sunday morning and went to breakfast with the family. Before he had finished the meal, he asked to be led back to the bed. After awhile he called his grandson to him and said that he was dying. A message was sent to Dr. J. M. Shutt and he hurried to the bedside of his father, to find that life had fled.

John Shutt was born in Starke county, Ohio, on January 20, 1817. He was married to Miss Elizabeth Rhoades on December 19, 1839. The wife still lives to mourn the death of a most devoted husband. Nine children were born to the union, and of those five still survive. They are Dr. J. M. Shutt, of this city; Dr. A. J. Shutt, of Spencerville, Ind.; Dr. L. A. Shutt, of North Manchester; Mrs. Martin Waters, of Antwerp, Ohio, and Mrs. William Davis.

The deceased was a member of the Lutheran church and had been a communicant of that faith since 1867.

HASS.

The funeral of Mrs. Elnora Hass will take place at 2 o'clock Wednesday afternoon from the Wayne street M. E. church.

WILL BE BENEFICIAL.

An Institute for Sunday School Teachers to Be Held in Fort Wayne.

The Allen County Sunday School association has made arrangements to hold a teachers' institute in this city, August 24th to 27th, and has secured Miss Annie S. Harlow, of Philadelphia, as principal instructor. Miss Harlow has spent many years as primary worker, and is at present superintendent of a primary department that enrolls over 200 pupils. It is hoped that all the Sunday school teachers in the city and county schools will take advantage of this four days' institute.

Kendallville Sun: "Rev. Gus Moritz, Edward Stetor and Ed Wehmeyer, of Fort Wayne, are visiting friends in the city and are the guests of Henry Wehmeyer and family."

If every woman who expects to become a mother would heed and read that great book, "The People's Common Sense Medical Adviser," by Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., there would be stronger mothers and healthier, happier children in this world.

In this grand volume several hundred of its thousand pages are devoted to teaching women how to take care of themselves during every trying and critical period of their lives and especially at the time of approaching motherhood.

The author of this remarkable work has had a lifetime of practical experience in treating the special diseases and weaknesses of women, and is recognized as one of the foremost of living experts in this particular field of practice. His "Favorite Prescription" is the most wonderful medicine ever invented to restore natural organic strength and power to the delicate feminine structure which is most intimately concerned in motherhood.

Taken during the time of anticipation it deprives this ordeal of all its accustomed terrors and dangers; makes the coming of baby absolutely safe and comparatively painless; renders the mother strong and cheerful, and helps to endow the child with a strong, healthy constitution.

Mrs. Mabel Jordan, of Swofford, Lewis Co., Washington, writes: "I took Dr. Pierce's Favorite Prescription until the very last day. We now have a fine, plump little girl over two weeks old. I suffered less pain than with any of the others, this being the sixth child, and she has good health. I got upon the tenth day and dressed myself—something I could not do with the other babies. Have been gaining in strength every day and feel well, all due to God and to Dr. Pierce's Favorite Prescription."

For the "Medical Adviser," send 21 one-cent stamps, to cover cost of mailing *only*, or for cloth-covered copy 31 stamps, to Dr. R. V. Pierce, Buffalo, N. Y.

The Fort Wayne Mutual Benefit association will meet tomorrow night in their new rooms on the third floor of No. 140 Calhoun street.

J. Wesley Hill, of Ogden, Utah, is in the city. He is interested in mining and is trying to induce young men to go west and seek employment in mines.

Charles Thayer and Carl Upmeyer have returned from Rome City after a two weeks' outing. They report a general good time and a large catch of fish.

The people of the St. Vincent's church, located one-half mile west of Robison park, will give a picnic Thursday. Judge O'Rourke and J. M. Robinson will speak.

Patrolman Pat Madden, who has been sick for a week, reported for duty this morning, but had to return home after an hour's service. He is still too ill to patrol his beat.

Ben Kenney, of Lexington, Ky., is registered at the Wayne. Mr. Kenney at one time handled the reins over Nancy Hanks and is here with a string of horses which start in the races next week.

A unique entertainment entitled, "The Queen Cantata," will be given at the Trinity M. E. church on Thursday evening. Prof. I. H. Bullers, of Pittsburg, who has successfully given the cantata in several Ohio cities, is in charge. The program will appear later.

Casper Orebaugh, of Muncie, state organizer of the Amalgamated Association of Street Railway Employes, was in Fort Wayne yesterday and today looking up the interests of his association. A meeting was held last evening and was fairly well attended. It is the desire of the association to build up the old division rather than to organize a new. Mr. Orebaugh returned to Muncie this afternoon.

Contracts Approved for the Construction of Pavements.

The Board of Works Visits the South Side Streets and Make an Investigation —Notes.

The board of public works this morning met in special session and approved the contracts and bonds of the new asphalt streets to be built by the Alcatraz Construction company on Fairfield avenue, Cass and High streets.

Yesterday afternoon Messrs. Eggemann and McCracken, of the board of works, and City Civil Engineer Randall visited the south side streets and inspected the work being done there. The pavement on East Creighton avenue was found to be in very bad shape. Water had arisen underneath the foundation and caused the pavement to sink in many places and there were many defective spots. Mr. Guelich was present and showed the board where he believed the subsoil would not hold the foundation and pavement. He will build a trench and carry the water into a manhole at the corner of Clinton street. The board will not accept the work until it is satisfactorily done. Suttenfield street was visited and the pavement was found to be vastly superior to that on Creighton avenue. Binder is being laid on Woodland avenue and on Hoagland avenue the concrete is not all laid.

BOARD OF WORKS.

At the meeting of the board of public works yesterday afternoon, a resolution was passed, providing for nearly a mile of lateral sewers in the northwestern part of Bloomingdale. The engineer's plans provide for sewers on Putnam street, from the alley west of St. Mary's avenue to the alley west of Franklin avenue; in the alley west of Franklin, from Spring to Archer; alley between Spring and Huffman, from the alley west of Franklin to the west line of Archer's addition; alley between Huffman and Putnam, from the alley west of Franklin to the west line of Archer's addition; alley between Putnam and Archer, from the alley west of Franklin to the west line of Archer's addition.

Plans were also submitted, providing for sidewalks on the west side of Fairfield avenue, from Morgan avenue to Nuttman avenue. Resolutions were immediate for both these improvements.

A petition was presented, asking that Poplar street be widened and extended from its present terminus at Oakley street to the first alley west. No action was taken.

The bonds of Henry Ehle for building a sidewalk by private contract, and Conrad Nern and Nicholas, sewer builders, were approved.

NOTES.

Comptroller Berghoff, while in Chicago, arranged for bicycle tags to be used for the year beginning September 1. The tag will be of aluminum the same as at present, but the design will be a star with a big letter "B" inscribed thereon. In this letter will be the date and the number of the wheel.

The council committee of the whole will meet tomorrow evening to consider the annexation of certain south side property.

Notice.

On account of going out of business, I will sell my groceries at and below cost. I also have for sale horse and delivery wagon and buggy; also house and lot on West Jefferson street.

A GOOD THING.
.... A BATH.

You can't take a bath except in a tub and do it right. What you need are the conveniences of the modern bath room. Have you ever enjoyed the luxury of that delightful feeling of new life after a bath? People who really know the expense, say they would rather dispense with their parlor than their bath room.
